NEWS NOTES OF THE DOMINION

Insurance Investigation Resumes Its Sessions--Day's Fatalities at Toronto.

MANY IMMIGRANTS ARRIVE

Convict Fell From Top of Sixty Foot Chimney Dies From Injuries Received.

TORONTO, May 28.—The insurance commission commenced the thirty-first day of the inquiry this morning, with J. K. Macdonald, managing director of the Confederation Life, in the witness box. Mr. Macdonald, who holds 400 shares of Confederation stock, said he was familiar with the affairs of the company, but could not say how many proxies were held by himself and other directors, even approximately. There were ten thousand shares, and a vote for every share. Of stockholders related to him in such a position as to be friendly to his management, he said there were two sons, a daughter and daughter-in-law, who hold shares. The business of the company had been extended to Newfoundland, Mexico, and the West Indies, but not to the United States. Foreign business was remunerative.

Dead of Heart Failure

Toronto, May 28.—Victor Jacobs, who came to Toronto from some point on the Pacific coast last Thursday, was found dead in his room in the Commercial hotel on Jarvis street this morning. He was sitting in a chair with a newspaper over his head. Heart failure was the cause of death.

Young Girl's Suicide

Toronto, May 28.—Caroline Blake, a nineteen-year-old girl, employed as seamstress at Toronto Junction, committed suicide last night by turning on the gas in her bedroom and allowing herself to be suffocated. No reason is assigned for the act.

Asphyxiated by Gas

Toronto, May 28.—John Sharpe, proprietor of the Prince's hotel, Gravenhurst, was found dead in bed in a room at the Gladstone house yesterday, with the gas jet turned on full and the room filled with gas.

Destitute Immigrants

Toronto, May 28.—Fifteen entirely destitute families were among four hundred English immigrants who arrived in the city on Saturday. They were sent to Canada by the corporation of Bristol.

Manufacturers Coming West

Toronto, May 28.—Arrangements are being completed for an excursion of the Canadian manufacturers through the Northwest after their annual meeting, which is to be held in Winnipeg September 17 and 18. The delegates will go to the Pacific Coast.

Gentleman Farmer's Death

Montreal, May 28.—At an early hour this morning, the body of Benj. Drearie, Montreal West, was taken out of the Lachine canal near the bridge at Cote St. Paul. Deceased had left home last night between nine and ten o'clock, apparently to pay a visit to a friend, and when he did not return the suspicions of the family were aroused and search was made, with the result as stated. Drearie was fifty years of age, and is survived by a large family. He owned considerable property and was a gentleman farmer at Montreal West. For a period of several months Drearie had been indisposed, and latterly his mind had been affected.

Governor-General at Hamilton

Hamilton, May 28.—His excellency Earl Grey and his party arrived in Hamilton yesterday. This morning a civic reception was held, after which the governor-general opened a sanatorium.

Success to Wounds

Kingston, May 28.—Mrs. Joyce, who was shot through the body at Hamilton on Saturday morning by her jealous husband, John Joyce, who later cut his own throat, is dead of her wounds. Cornelius Joyce, her father, who was also shot by Joyce, is now in Kingston hospital, resting fairly easy. An attempt may be made to probe for the bullet in his lung.

Convict McGee Dead

Kingston, May 28.—John McGee, the noted criminal, who tried to escape from the penitentiary on Thursday night, is dead from injuries received by falling down chimney, up which he was climbing in order to effect his escape.

Drowned Near St. John

St. John, N.B., May 28.—At Millageville, a suburb of St. John, on Saturday afternoon, Walter S. and Ernest L. White, sons of Robert J. White, were drowned a few yards from shore.

New Car Wheel Works

Fort William, May 28.—The Canadian Foundry Company propose to establish a large car wheel works here, employing at least 200 men.

Aged Farmer's Suicide

Dominion City, Man., May 28.—An old farmer named Albert Wortley, who had resided near here for twenty years, blew out his brains with a shotgun in the house on his homestead.

Methodist Conferences

Winnipeg, May 28.—The Assiniboia Methodist conference will open in Brandon on Wednesday, the 29th inst., and will be followed by the Alberta conference, which convenes at Edmonton on June 11. Many prominent officials of the church will be present.

Northern Oil Prospects

Edmonton, May 28.—J. Bannette of the Edmonton & Athabasca Development Company arrived in the city last evening on the Canadian Northern from Winnipeg and will leave for the North tomorrow to take charge of the company's oil boring at Fort McMurray. The company last year began boring for oil at Fort McMurray, but were unable to reach a depth of more than 500 feet for lack of better and more powerful machinery. There were, however, splendid indications of paraffine oil in large quantities. Mr. Bannette returned from Fort McMurray last fall after a hazardous journey. This year he is taking with him more machinery of more powerful quality, which will enable him to reach a depth of 2000 or 3000 feet if necessary. He is taking six men with him from Edmonton and will employ more in the north. He expects, providing no serious delays are met, to return in the fall with prospects of an established enterprise.

THE BELGIAN ELECTIONS.

Brussels, May 28.—The result of the elections to the Chamber of Deputies reduces the government majority from 20 to 12.

SECOND MAYBRICK CASE.

Sensation Before French Courts Recalls English Case.

Bordeaux, May 28.—A sensational case is before the courts here, recalling the famous Maybrick case. Mme. Canady fifteen months ago was tried and acquitted of the charge of causing the death of her husband by overdosing of a preparation of arsenic prescribed by a physician who was treating him for the grippe. She has now been arraigned on a second charge, that of obtaining large quantities of arsenic and digitaline by means of forged prescriptions. The case is attracting much attention throughout France.

PRINCESS ENA FORMALLY WELCOMED BY NATION

Members of Deputies Present Address to Her Royal Highness.

MADRID, May 28.—A delegation of the foremost men in the chamber of deputies and senate waited on the Pardo palace and presented Princess Ena, with an address of welcome, on behalf of the Spanish nation. This action is significant of the cordiality with which Spain has received the foreign Princess. King Alfonso and Princess Ena received the visitors in the grandroom of the Pardo. The address read: Madame—We come before you, your royal highness, both as the representatives of the parliament of Spain and as the representatives of the nation, convey to you the assurance, without the slightest semblance of flattery that if the nation itself had chosen a spouse for its King as our August Sovereign has seen fit to select a Queen for his people, the aspirations of Don Alfonso XIII would have coincided happily and completely with the wishes of his people. His majesty has been a model son and a model brother, which inspires us to confidence that he will be a model husband. We will do our utmost that your highness may be happy in Spain and may not regret parting from your native land.

"Your highness in aiding the task of the King will work for the good of Spain and to this noble purpose let us all consecrate our best efforts."

During the afternoon King Alfonso took the princess in an automobile to the Escorial.

Paris, May 28.—The Prince and Princess of Wales, the Grand Duke Vladimir of Russia, Princes Ludwig and Alphonse of Bavaria, and Prince Andrew of Greece left Paris today for Madrid to attend the wedding of King Alfonso.

PROTESTS AGAINST SMOOT.

Many Petitions Presented to the U. S. Senate Against the Mormon.

Washington, May 28.—Protests against the retention of Reed Smoot as a senator of the United States were forwarded to the senate today. The petitions bore the signatures of thousands of women and were presented by senators from Minnesota, Indiana, New Hampshire, Kentucky, Kansas and New York. It is said that during the week similar petitions will be received from every state and territory in the union.

KING EDWARD'S VISIT TO CANADA

Proposed Trip of His Majesty Urged by Press For State Reasons.

MAY MEET ROOSEVELT

Royal Tour Would Likely Prove Memorable Past all Example.

LONDON, May 28.—In an editorial article the Daily Telegraph this morning strongly favors King Edward's acceptance of the invitation to visit Canada. The Daily Telegraph thinks the British public has not yet awakened to a full appreciation of the extraordinary interest of such an event, which would be likely also to involve a visit to Washington and perhaps to New York. The newspapers recognize that possibly there are state reasons in the way of such a visit, but urges that "Canada is a living link between the American republic and the British empire, and that if it can be accomplished it would be not merely historic but memorable past all example in the record of all royal progresses. The alliance with Japan, the entente with France, the better understanding with Russia, followed by a visit to Washington and a meeting with President Roosevelt, which would be a dramatic moment, instanced with significance, sealing the reconciliation of the Anglo-Saxon races for ages to come, would make the years of His Majesty's influence more memorable and beneficent than any equal period of any previous reign."

The Preston Scandal

In the Commons yesterday, Walter Runciman, replying to J. J. Mooney, said that Lord Strathcona had informed Lord Elgin that he was not implicated, either personally or as high commissioner, in certain scandals now being investigated, and that Lord Elgin did not propose to interfere. Swift McNeil asked if it were not the case that the high commissioner was practically a non-political office and whether Lord Strathcona was one of the principal tariff reformers. The speaker said the suggestion did not arise out of one of the papers.

Sydney Buxth, answering Mr. Devlin, said he could not consider with favor the abandonment of the Irish post for a final despatch of Canadian mails. The matter was still under consideration.

An Ottawa cable states that Lord Strathcona is going to Canada to give evidence before the parliamentary committee. Lord Strathcona, replying to a question of the Canadian Associated Press, said, "I have nothing to say about it."

The education bill was considered in committee by the House of Commons. An amendment offered by Sir W. R. Anson, Liberal, declaring for denominational teaching was defeated by a majority, 191. After the strongest opposition, protests the government invoked closure under which the first clause, involving the principle of the bill was carried by a majority of 203.

Irish Laborers' Cottages

The chief secretary for Ireland, Mr. Bryce, introduced in the House of Commons today a bill authorizing a loan of \$2,500,000 to provide laborers' cottages in Ireland. Mr. Bryce explained that the loan would be raised on the same terms as the land loan. He estimated the cost of a cottage and land at about \$850, so that between 25,000 and 30,000 cottages would be erected.

John E. Redmond, Irish Nationalist, congratulated Mr. Bryce and said he hoped the measure as an honest effort to deal with grievances of great magnitude.

China's Evasive Reply

The Times correspondent at Peking, telegraphing under date of May 28th says that the Chinese foreign office has replied to Great Britain's second note regarding the imperial edict on the administration of custom affairs which was sent to the British legation late Monday night. The reply is as evasive and unsatisfactory as the first and, says the correspondent, cannot be accepted.

CLOUDBURSTS AND FLOODS ON THE PACIFIC COAST

Several Mexicans Drowned in Utah--California Rivers Reach Danger Point

SEATTLE, May 28.—(Special)—Michael Sheridan, aged 70, a track walker employed by the Northern Pacific at Palmer Junction, celebrated his seventieth birthday yesterday by committing suicide. He drank a bottle of carbolic acid and died almost immediately.

Vessels in Collision
Los Angeles, May 28.—(Special)—With her headgear carried away and seriously damaged, the schooner Balmbridge, Captain Englebrecht, put into San Pedro yesterday evening for repairs. She had been in collision, off Santa Rosa Island, with the barkentine Gleaner, commanded by Captain Schmeal. The Gleaner did not escape

damage, but repairs were made at sea and the vessel continued on her course.

The Imprisoned Dynamiters

Boise, Idaho, May 28.—(Special)—Attorneys representing the prisoners, Charles H. Moyer, William D. Haywood and George A. Pettibone, this afternoon went to Caldwell, where they will tomorrow present to District Judge Frank Smith their petition for a change of venue. They will also file objections to Judge Smith acting as trial judge, alleging bias against the accused.

Death Rather Than Arrest

Boise, Idaho, May 28.—(Special)—Three Japanese were drowned near Marysville while attempting to escape from State Game Warden Stephens, who had arrested them for dynamiting a dam in the north fork of Snake River. Stephens placed six Orientals under arrest and all made a dash for liberty, jumping into the river. Three managed to get across, but the other three were carried down stream and lost their lives.

Cloudburst in Utah

Salt Lake City, May 28.—(Special)—Eight or ten Mexicans employed as sheepshearers near Golconda, Nev., are reported to have been drowned last night in a cloudburst. Unusually heavy rains have prevailed throughout Utah during the past three days. In Salt Lake valley the precipitation has been in excess of two inches.

At a break in the Sevier River dam is threatened, and 300 men with teams are working day and night to prevent the impending disaster.

Danger of Floods in California

Bakersfield, Cal., May 28.—(Special)—The danger of floods here is abating. It is believed that if the head gates of the big irrigation canals stand the strain, the city is safe for the present. The greatest apprehension is felt by farmers, who find protection in the city. The water is now within two feet of the levee, and waves from high wind are threatening its destruction. If a break occurs, 40,000 acres of rich land in the Kern Valley will be flooded.

New Southern Trade Route

Los Angeles, May 28.—(Special)—The first cargo of goods to arrive at San Pedro from the Orient is now on the way east. It was brought on the Hercules and has been shipped via the Salt Lake road.

BOMB THROWERS' VICTIMS.

Sebastopol, May 28.—The official reports of bomb outrages on Sunday shows that six persons were killed, 14 persons seriously injured, and six slightly hurt.

WESTERN FEDERATION MINERS.

Large Number of Delegates Attend the Annual Convention at Denver.

Denver, Colo., May 28.—One hundred and fifty delegates attend the opening session here today, of the annual convention of the Western Federation of Miners. The sessions will be executive. It is tacitly agreed among the members that Chas. H. Moyer, president and Wm. D. Haywood, secretary and treasurer, who are in prison in Idaho awaiting trial on the charge of complicity in the assassination of former Governor Steiensenberg, will be re-elected.

EIGHT DEAD AND MANY INJURED IN WRECK

Four Passenger Cars on Louisville and Nashville Railroad Derailed in Smash-up.

LOUISVILLE, Ky., May 28.—Eight persons were killed and 32 others injured today by the derailment of four cars of a passenger train on the Louisville and Nashville railroad. The train was nearing the union station in Louisville at a moderate speed, when a flange on a wheel of the smoker broke, throwing open a switch and causing two of the coaches to side-swipe several cars on a siding. The dead: Howard B. Coleman, Stanford, Ky.; T. W. Thorpe, Broadhead, Ky.; Wm. Fritt, colored, Lebanon, Ky.; George W. Ponder, Broadhead, Ky.; John C. Black, Louisville, Ky.; Francis Weaver and Martin Hilton, Broadhead, Ky. Unidentified white man, laborer.

Most of the injured were trainmen and laborers. The locomotive and the combination baggage and mail car passed the switch in safety but a flange on the forward truck of the smoker broke, throwing the switch open. The rear truck of the smoker ran on the switch, followed by the day coach and two sleeping cars. The smoking car did not break loose from the train and was dragged 200 feet along the ties, until the side of the car struck a string of freight cars, tearing off the roof of the smoking car. The front end of the day coach was broken in for 20 feet, seats being torn up and all the windows broken. The hot water heater which was in the forward end of the day coach was hurled into the middle of the car, killing H. B. Coleman. The bodies of the dead were so badly disfigured that identification was difficult.

GERMAN DIRIGIBLE BALLOON.

Successful Trial of Airship Before War Minister at Berlin.

Berlin, May 28.—Major Van Parseval's dirigible airship made its first ascent in the presence of War Minister Von Finen and many members of the general staff of the German army today at the target grounds in Tegel. The airship rose to a height of 400 yards, circled the grounds several times, and then descended several times a figure eight, showing remarkable ease of steering. A moderate wind was blowing at the time, but it is claimed that the experiments proved that the airship will be able to operate in a gale of 48 miles an hour.

LABOR INTERESTS AFTER PRESTON

All Organizations in Canada Will Be Asked to Urge Termination of Irregularities.

LORD'S DAY OBSERVANCE

Publication and Sale of Sunday Papers to be Absolutely Prohibited.

OTTAWA, May 28.—(Special)—Mr. McLean moved a resolution asking that the insurance investigation be taken out of the hands of the commission and entrusted to a committee of parliament. Hon. Mr. Fielding resisted the motion on the ground that the commission is doing its work better than a committee could. The greatest evil which had arisen in the States had been the creation of unnecessary alarm, with the result that a number of policyholders had allowed their policies to lapse. While the result of the investigation so far had shown that there were certain irregularities in Canada which would require a reform in legislation in regard to all the companies, there was nothing to show that they were not "sound, solvent and able to bear their responsibilities." Hon. Mr. Fitzpatrick insisted that the commission had acted with despatch and had accomplished all that could be expected. Mr. McLean's motion was lost.

Labor Interests Indignant

Labor interests are up in arms against Messrs. Preston and Leopold as a result of the recent investigations here before the parliamentary committees. All labor organizations in Canada will be communicated with in order that representations be made to the government to stop the practices which have evidently been going on for some years. An attempt will be made to prosecute Leopold for sending out skilled artisans to Canada on false representations.

The Transferred Garrisons

Sir F. Borden gives notice of resolutions declaring that time served with His Majesty's regular forces may be counted for the purposes of any regulations with regard to pay and allowances in the case of non-commissioned officers and men transferred to the permanent force in connection with the taking over of Halifax and Esquimalt.

The Supreme Court Vacancy

Owing to Sir L. Taschereau's resignation of the position of chief justice of the supreme court and Judge McClelland's continued illness, the court today had to adjourn till next Monday.

Lords' Day Bill

The Lord's Day bill will be amended to permit work for Monday morning newspapers to commence at 8 p.m. on Sunday. Publication or sale of Sunday papers is to be absolutely prohibited.

J. J. Hill is to be here shortly in furtherance of his trans-continental railway project. He will address the Canadian club at luncheon.

Mr. Borden gave notice tonight of a motion tomorrow on the part of the opposition for an enquiry into the administration of the Dominion lands act and whether there has been irregular, improper or imprudent dealing in respect thereof.

Pacific & Atlantic Railway

The bill respecting the Pacific and Atlantic railway which has passed the senate was read first time in Commons. At the request of several of the members, the bill increasing the capital stock of the Bell Telephone company to thirty millions was held over until the government's proposals on the subject of dealings with municipalities was brought down.

James Bay Railway

Mr. Gruel and Frank Denton, representing Messrs. Mackenzie & Mann, appeared before the minister and deputy minister of railways and asked for approval of the route map of the James Bay railway from Sudbury to Bathurst bay. The route would run from Sudbury round the north of Lake Superior to connect with the Canadian Northern line at Kashabowie, west of Port Arthur. This will give a through line for Mackenzie & Mann from Edmonton to Toronto. The line north of Lake Superior will run about 20 miles back from the Canadian Pacific railway over the Height of Land. Mr. Darcy Scott represented the C. P. R.

"WHEN THIEVES FALL OUT."

Secrets of New York's Swell Gambling House Revealed in Lawsuit.

New York, May 28.—In the trial today before Judge Newburger, of the suit brought by John Delahanty against Richard S. Canfield, for \$50,000 for legal services growing out of the raid on the latter's gambling house in 1902, Delahanty testified regarding the settlement of three notes for \$100,000 each in the possession of Canfield. The name of the maker of these notes was not divulged, he being only described by the witness as "a young man under 21 years old."

Delahanty said that after prolonged negotiations, a compromise was reached and the notes were surrendered on the payment of \$130,000. Delahanty also testified that Canfield had told him that his annual income was \$50,000. He said that Canfield kept in the safe in his establishment, securities to the value of a million as well as certain letters which Canfield's manager told him meant "social ruin to certain people."

TOAST

DONE TO A TURN

EVERY TIME WITH

A GAS RANGE

There is no danger of a smoky kitchen or smoky-tasting toast. Under the modern heat, easily possible by means of the gas range, the bread is quickly browned, while its substance is not dried to nothingness. There is nothing that adds so much to a good breakfast as a plate of toast that is just right.

PERIODICAL REVOLT

NOW ON IN GUATEMALA

Former President Heads Revolution Aided by the Neighboring Republics.

Mexico City, May 28.—Advises received this afternoon from Tapachula and Tonala, in the Mexican state of Chiapas, show that a revolution is on against the existing administration of President Estrada Cabrera of Guatemala. It broke out yesterday, and Guatemala was invaded from four points by as many bodies of armed men all equipped with the best modern rifles.

General Manuel Leraido Barillas, formerly president of Guatemala, with 200 Privates and a stock of 700 rifles, crossed the Mexican border at a point near Motozintla, and is aiming at Quetzaltenango, a large town garrisoned by Guatemalan regulars. Barillas has great coffee estates in that neighborhood, where he is popular, and whence he was driven four years ago by President Cabrera. It is said that Quetzaltenango will be taken without much resistance. Barillas successfully evaded the search of the authorities. He will recruit new men on his march across the mountains, the people being loyal to him, he says. General Jose Leon Castillo captured Ocos yesterday without much opposition being shown. He took that point with 500 men and was received with enthusiasm by the people. The steamer Empire State left San Francisco on May 15th with 500 desperate fighters and recruits and some 5,000 rifles. General Castillo was a rival candidate for the presidency seven years ago against Cabrera, but alleges that he was counted out, and he has a long series of scores to settle with the Guatemalan president.

Other Republics Take Hand

Ocos is an important point for the revolutionists. Gen. Pineda, with a large force of good fighters, crossed into Guatemala on Sunday from British Honduras and invaded the province of Peten. Pineda is a stalwart soldier and a typical Guatemalan revolutionist. He expects to rally the Indians in Peten. Simultaneously on Monday Gen. Toledo, formerly minister of war in Guatemala, crossed into Guatemala with 2,000 troops, including the San Salvadoran regulars and disaffected Guatemalans, largely refugees from the tyranny of Cabrera. This body of troops is well drilled and armed with modern weapons. This act practically declares war by Salvador against Guatemala.

Nicaragua also takes part by sending a warship from New Orleans to Puerto Barrios, the sea terminus of the Guatemalan nation, to intercept Cabrera.

THE METRIC SYSTEM

FULLY ELUCIDATED

Prof. McLennan Outlines Its Advantages Before Board of Trade.

BRIEF HISTORY OF THE MOVEMENT

France Was Pioneer Among Nations to Adopt the Suggested System.

At the Board of Trade meeting last night, Professor J. C. McLennan, B.A., Ph.D., of the University of Toronto, gave a most interesting lecture on the metric system, before an audience which filled the auditorium. T. W. Paterson, M.P., president of the Board of Trade, was in the chair. Arranged on a stand, where were also some charming bouquets of roses supplied by Mrs. (Dr.) A. T. Watt, were sets of standards of weights, length and capacity. Charts were also used to show the merits of the system.

Prof. McLennan gave an account of the origin and development of it; presented some of its chief characteristics; pointed out some of its advantages, and outlined its introduction into adoption by a number of countries of the world.

He referred to the confusion which resulted from the indefinite standards of weight and of linear measurements adopted by the different nations in the early history of their development from barbarism. At the beginning of the eighteenth century the creation of a universal system to be adopted by the leading scientists of Europe, among the most active being James Watt, the inventor of the steam engine. In 1780 the French academy of sciences was instructed to devise a system of weights and measures which would be suitable to all nations and in 1790 it had adopted the metric system.

In this scheme the ten millionth part of the length of a quadrant of the earth's meridian was adopted as the standard unit of length and was called the metre. On this unit the whole system of weights and measures was built up, all subdivisions and multiples of the standard unit being decimally connected.

In the carrying out of the scheme two able mathematicians and distinguished scientists, Delambre and Mechain, measured an arc of the earth's surface, from Dunkirk, in the north of France, to Barcelona, on the east coast of Spain, the task occupying about seven years; and from this measurement the total length of a quadrant of a meridian was obtained. The measurements and calculations were carefully revised by a commission of weights and measures composed of 22 members chosen from the various countries of Europe. When the length of one metre had been determined, a bar of platinum one metre in length at the temperature of melting ice was constructed with the greatest care by Lenoir under the direction of Borda, and this bar, known as the "metre des archives," is still preserved in the Palais des Archives and serves as the first practical standard of length of the metric system.

The Unit of Mass

The kilogram was adopted as the unit of mass; it is a mass of distilled water which, at a certain temperature, atmospheric pressure, sea level and latitude, would exactly fill a cube with an edge equal to one tenth of a metre, a cylinder of platinum, constructed with the greatest possible precision to contain such standard mass, is preserved along with the metre in Paris.

The metric system and that alone has been the legal system in force in France since 1840. It was legalized in Germany in 1872 and made obligatory in Austria in 1873, and somewhat later in Italy; and it is now the official and legal system of weights and measures in 43 countries of the world. In the United States, in Great Britain and Ireland, and in a number of the British dependencies, including Canada, this system has been legalized, but not as yet made compulsory.

THE PLANETS AND THEIR RELATION TO MAN

Mme. May E. Stevenson will demonstrate the first planetary triad, Air, Water, and fire; on which she lectured last night and people born in January, February and March will receive Astrological readings.

This demonstration will take place at the A. O. U. hall at 8 o'clock to-night. Admission, 50c.

SEVERE FIGHTING REPORTED.

Berlin, May 28.—The latest official cablegrams received here report severe fighting in southern Southwest Africa. A series of engagements occurred between May 21 and May 25, in which the total losses to the Germans were 4 officers and 36 men, of whom 2 officers and 17 men are dead.

RHEUMATISM.

Why suffer from this painful malady? One application of Chamberlain's Pain Balm will relieve the pain and make rest and sleep possible. Many cures have been effected by its continued use. Try it and be convinced. Price, 25 cents; large size, 50 cents. For sale by all Druggists.

THE NEW YORK LIFE.

New York, May 28.—The report of the expert accountants who have been examining the New York Life Insurance company under direction of the Fowler investigating commission, was handed to the board of trustees today by the commission. The Fowler committee said that it will reserve any comment that it may make up on this report, and that its own final report will be made at the next meeting of the board of trustees. The resignation of George W. Perkins as vice president of the New York Life was before the board, but no action was taken on it.

Funeral of G. D. House.—The remains of the late G. D. House were laid to rest yesterday afternoon in Ross Bay cemetery, and the members of the Sons of St. George attended, also acted as pallbearers, as follows: Messrs. W. H. Price, C. Pardow, H. Rivers, W. Rerril, F. Downsap, D. A. Drestill. Many beautiful floral emblems were presented.

the development and spread of scientific knowledge. The international system of electrical units is based upon the metric system; all British and American electrical engineers and workmen must work by it. The metric system is exceedingly simple in calculation, the saving in energy consumed by a nation in a year or two in calculations rendered necessary by the use of our present system of weights and measures alone would warrant the universal adoption of the metric system. The adoption of the system would be an advantage as long ago as 1870, in Great Britain it was authorized in 1886. In the latter country a select committee of the house of commons was appointed in 1885 to make enquiries as to the best means of reforming the British system. They received evidence from official, commercial, manufacturing, trade, educational and professional sources. It was recommended that the system be adopted; and that after two years it should be compulsory; and, further, that it should be taught in all the schools. Reports were published embodying replies to the questions put by Lord Salisbury to all ambassadors in countries where the system was in vogue. These replies were in every case strongly favorable. In February, 1904, a bill was introduced into the house of commons, and on May 17 and third reading occurred on May 17 and 18, 1904, and was passed on to the commons. The bill made the metric system compulsory after April 5, 1906, or such later date as might be fixed by the council. It was supported by 30 councils, 40 chambers of commerce, long lists of retail dealers, trades unions, teachers, etc., representing a population of 2,800,000. The members of the house supporting the measure in June, 1904, were 96, which number gradually increased until in February, 1905, there were 333 members, largely sufficient to make the bill law. In the United States the system was legalized in 1866. The United States half dollars weigh 12.5 grains, the quarter and dime one half and one-fifth of this respectively. The metric system was made obligatory in Porto Rico in 1889 and was continued as the legal system in the Philippines in 1903. In 1902 and 1903 the department of commerce recommended adoption to the effect that governmental departments should use the system after January 1, 1904, and by the people generally in 1907. The bill was reported in April by committee on a vote of 16 to 2, but owing to press of business was not taken up.

On December 18, 1905, a bill was introduced requiring all government contracts to be made in the metric system on and after July 1, 1908. This bill is now before congress.

In Greater Britain the lecturer pointed out a continuous line of development. In 1900 the fourth chamber of commerce recommended adoption. In 1902 the conference of colonial premiers recommended adoption throughout the empire. In 1903 the fifth chamber of commerce, held in Montreal, favored adoption; and in 1904 a most favorable report was sent out by the colonial office. In November, 1903, a letter was received from the premier of New Zealand, enclosing a copy of the weights and measures act passed in that year adopting the system, to come into force not sooner than January 1, 1906. In Australia also the matter had demanded the attention of legislators.

At the close of the address Mr. S. J. Pitts moved that a vote of thanks be extended to the speaker. He said he expected that a lecture, but had found it most interesting, and hoped that another opportunity would be given to many, who, like himself, had doubtless thought the subject would be a dry one, and had not attended.

Dr. Ernest Hall said he had used the metric system for some time, but found that in pharmacy a lower unit than the gramme would be useful.

Prof. McLennan said that in Germany the gramme was the unit used, and Parke Davis and other manufacturers of drugs used the metric system in manufacturing.

The vote of thanks was put and enthusiastically carried.

RADIANT WOMANHOOD.

The glory and satisfaction of beautiful womanhood can be known only to those possessing the unlimited advantages of health. No weak woman can be happy or enjoy half the pleasures of a healthy one. The weak woman needs is Ferrozine. It renews, restores and vitalizes instantly—it's a "woman's remedy"—that's why.

Ferrozine makes women strong, plump and healthy because it contains lots of nutriment, the kind that forms muscle, energy, blood and vitality. It works its course through the body, making delightful color, happy spirits, true womanly strength. Fifty cents buys a box of Ferrozine in any drug store.

Wm. McNeill, parliamentary agent for the V. W. & Y., is staying at the Strand. Robert Draney, a canneryman of Nanaimo, is a guest at the Dominion.

DEAD SICK OF ASTHMA?

You couldn't be otherwise with such a distressing malady. Well, for one dollar spent on a remedy you will be cured. Asthma steadily grows worse. Get Cattarh-ozone today and cure yourself; it's pleasant to use, very simple, and guaranteed. Prescribed by thousands of doctors and used by the people of nine nations—Certainly Cattarh-ozone must be good; it hasn't failed yet, no matter how chronic the case.

PERSONAL

F. Clarke, S. Porter and J. Robertson, of this city, who have been spending a week-end vacation in the South city, returned yesterday. B. Goddard, who was also in the party, continued the journey on to Vancouver on route to Revelstoke to resume his duties in the Royal bank.

F. C. R. McMahon, the new manager of the Royal bank, is making his temporary home at the King Edward hotel.

Prof. J. C. McLennan, the guest of Dr. and Mrs. Watt at William Head.

J. H. Gosnell, of the Western hotel, is reported to be rapidly recovering from his recent illness.

William Fernie is in Nelson on a business trip.

TO CURE ANY DISEASE

The Cause Must Be Removed—Same Way With Dandruff.

Kill the germ that causes dandruff, falling hair and baldness, you will have no more dandruff, and your hair must grow luxuriantly. Newcomb's Herpicide not only kills the dandruff germ destroyer, but it is also a most delightful hair dressing for regular toilet use. No other hair preparation is on this scientific basis of killing the dandruff germ. It stops all irritation, keeps the scalp sweet, pure and wholesome. Remember that something claimed to be "just as good" will not do the work of genuine Herpicide. Sold by leading druggists. Send the stamps for sample to The Herpicide Co., Detroit, Mich.

C. H. Rows & Co., 98 Government St., Special Agents.

Governor W. W. B. McInnes left Sunday evening for Skagway on his way to Dawson.

DISEASES OF THE SKIN.

Eczema, Tetter, Salt Rheum, Ring Worm, Herpes, Barber's Itch, Itch or Scabies.

All of these diseases are attended by intense itching, which is almost instantly relieved by applying Chamberlain's Salve and by its continued use a permanent cure may be effected. It has, in fact, cured many cases that have resisted all other treatment. Price, 25 cents per box. Every box is warranted. For sale by all Druggists.

NOTICE TO THE DRYGOODS TRADE.

C. F. Jackson & Co., Ltd. of Vancouver, have instructed Mr. McQuig to sell by auction at their wholesale warehouse, Hastings street, the whole of their stock of Dry Goods etc. on Wednesday next, 30th inst. Commencing at 10 o'clock in the morning. The stock will be divided into lots and sold at a rate on the dollar to the highest bidder. Terms of sale—Three months, 1st September next, on approved notes or 3 per cent discount for cash.

GOOD COFFEE

IS HARMLESS

Says Mrs. S. T. Rorer, the eminent authority on cooking. The trouble has often been due to the faulty method of making, and just as often to the inferiority of the coffee. For this reason, we wish that you would try a pound of our "CROWN BRAND." Most of our patrons use it and will have no other.

If coffee does not agree with you, there is a reason, and we want to help you find it.

TO MAKE GOOD COFFEE.

Fill the kettle with fresh, cold water, bring quickly to the boiling point; scald hot coffee pot, and while hot, put in a rounding tablespoonful of ground Crown Coffee to each pint of water; add the water and sugar at once.

Crown Coffee made in this manner is entirely free of fixed oil, and very delicious.

The price is 40c. per lb., and is the best value we have in the coffee line. Sold by all Grocers.

Pioneer Coffee and Spice Mills, Ltd.

VICTORIA

NOTICE TO CONTRACTORS.

Highway Bridge over the Cowichan River at Duncan's.

SEALED TENDERS, properly endorsed "Tender for Cowichan River Bridge," will be received by the undersigned up to noon of the 11th June next, for the erection and completion of a wooden highway bridge across the Cowichan River, Duncan's, Cowichan District, B. C.

Each proposal must be accompanied by an accepted bank cheque or certificate of deposit of a chartered bank of Canada, made payable to the undersigned, in the sum of two thousand (\$2,000) dollars, which shall be forfeited if the party tendering declines to enter into contract when called upon to do so.

The cheques of unsuccessful tenderers will be returned to them upon the execution of the contract.

The successful tenderer will be required to furnish bonds himself and two sureties, satisfactory to the Chief Commissioner, in the sum of one thousand (\$1,000) dollars each.

Upon the execution of the bond the cheque above mentioned will be returned to the contractor.

Tenders will not be considered unless made out on the forms supplied and signed with the actual signature of the tenderer.

F. C. GAMBLE, Public Works Engineer, Lands and Works Department, Victoria, B. C., 19th May, 1906. m27

NOTICE—City of Victoria. Municipal

WHEREAS, upon an inquiry held by the Municipal Council of the Corporation of the City of Victoria, on Monday, the 14th day of May, 1906, upon the complaint of W. W. Northcott, Building Inspector for the said corporation, into the state and condition of a certain wooden structure or wharf, appurtenant to Lot 4, in Block 70, within the Municipal limits of the City of Victoria, upon hearing the evidence in support of the said complaint, and the Solicitor for Mrs. Joan Dunsinville, the mortgage in possession and owner, the Council found the said wooden structure a nuisance and dangerous to the public safety, and it is deemed that the same be forthwith pulled down and removed.

THEREFORE be it resolved by the Municipal Council of the Corporation of the City of Victoria, that the said wooden structure appurtenant to Lot 4, Block 70, within the Municipal limits of the City of Victoria, and every part thereof is hereby declared to be a nuisance and dangerous to the public safety, and it is ordered that the same shall be pulled down and removed by the owners; and in case of default by the owners within five days after publication of this notice in the Colonial newspaper to comply with this order, the Building Inspector of the Corporation is hereby directed to pull down or cause to be pulled down and removed the same at the cost of the owner, and that the payment of such cost and all expenses incidental thereto shall be enforced against the owner unless paid on demand.

WELLINGTON J. DOWLER, C. M. C. Victoria, B. C., City Clerk's Office, May 22, 1906. m23

NOTICE IS HEREBY GIVEN THAT, sixty days after date, The Canadian Industrial Company, Limited, intends to apply to the Chief Commissioner of Land and Works for a lease of the following described fore-shore:

Commencing at a post at the Northwest corner of Lot 450, New Westminister District, and extending easterly along the water mark to the Southwest corner post of said lot, and extending Westward to deep water at right angles to a line drawn between the corner post of Lot 450 and Lena Coin, both of Vancouver. (Vancouver papers please copy.)

HAS CONSTANTLY and STEADILY INCREASED in Popularity and Esteem, and is now ACCEPTED THROUGHOUT the ENTIRE CIVILIZED WORLD as possessing all the properties of an IDEAL and PERFECT TABLE WATER.

CITY MAY APPEAL THE WATER SUIT

City Barrister Points Out the Advantages in Corporation's Favor.

A FAREWELL TO SIR HENRI JOLY

Mayor Morley Instructed to Arrange a Suitable Demonstration.

At yesterday evening's meeting of the city council, the following letter from the city barrister, re the city's dispute with the Esquimalt Water Works company was read:

Gentlemen—Re the city's dispute with the Esquimalt Water Works. I beg to report that the decision in this case of Mr. Justice Duff has been now delivered and is adverse to the city.

The effect of the decision is that the Public Act (Water Clauses Consolidation Act) does not affect the rights given by the private Act of the Esquimalt Water Works Company. One result is that the city's private Act (Victoria Water Works Act, 1873) is still in full force and effect, notwithstanding the Public Act of 1897. The Esquimalt Water Works Act, 1897, whereby the company derived its right to appropriate the waters of Goldstream, provides that the company's right shall be "subject, however, to any grant of rights, privileges or powers arising under the provisions of the Corporation of Victoria Water Works Act, 1873." The same act also, by section 9, declares "Nothing in this act shall be construed as in any way limiting or derogating from any grant of privilege accorded to the corporation of the city of Victoria, under the provisions of the Corporation of Victoria Water Works Act, 1873."

W. J. TAYLOR, City Barrister. The letter was received and filed. Ald. Stewart stated that the water committee were not prepared to report. They had held a meeting but had not concluded their deliberations.

Ald. Fell stated that they were still considering whether or not to appeal the case.

Ottawa and Bisley
Before taking up the routine business of the meeting, a deputation from the Fifty Regiment Rifle association waited on the council with an appeal for assistance to send representatives to the annual shoot at Ottawa and Bisley. Capt. Angus Langley and Sergt. McDougall were present and a communication was also presented on the same matter. In addressing the board, Capt. Angus requested that assistance to the amount of \$200 be granted to send ten men to Ottawa and one to Bisley. He pointed out that the assistance received last year had been a great help and the result was that Victoria had received a good advertisement both in the east and at Bisley.

It was decided to refer the request to the finance committee for their favorable consideration.

Improvement of Harbor
Thos. Sorby, secretary of the Victoria Property Owners' association, wrote as follows:

Gentlemen—On the 18th of last September the owners of property abutting on the inner harbor had a conference at the city hall with representatives of your honorable body, and of the board of trade, with a view to stating a case before the royal transportation commission in favor of the improvement of Victoria harbor. In due course this matter was laid before the commissioners, who have reported

ed strongly in favor of making this a national port, and placing it in a position to offer such facilities for the transportation of merchandise, both by land and water, as should ensure, in all human probability, not only a considerable development in the trade of the port, but also of those industries for which Victoria is so admirably situated.

The Victoria Property Owners' association is in full sympathy with the vast importance of the movement advocated by the owners of property abutting on the harbor, and respectfully begs to ask the council to urge the government to make suitable provision in the estimates for this year for the active commencement of this work as a national undertaking.

The proposition as endorsed by the joint committees may be shortly stated thus:

1. To excavate the harbor below the railway bridge to 20 feet deep at low water within a certain area, defined on the map submitted to the commission, and to use the excavated material in the formation of a bank on which to erect a break-water from Holland point to Brodie's ledge, the balance of material being used for the reclamation of the foreshore of the reserve.

2. The excavation of the upper harbor to a depth of 25 feet at low water, using the waste material for filling in the marsh lands and ravine on the reserve and reclaiming the foreshore on the southwestern side of the harbor, thus creating very valuable sites for wharves and manufacturing purposes.

I submit that it is hardly possible to overestimate the value of this work, in the development of the city of Victoria, and that you give the matter your sincerest support.

THOS. C. SORBY, Secretary Victoria Property Owners' Assn.

He also presented a resolution for their approval. The resolution which follows, was moved by Ald. Yates and seconded by Ald. Hall, and carried.

Whereas the port of Victoria is the most western port of the Dominion of Canada, and is geographically the centre of the ship building, repairing and outfitting industry of British Columbia and the Northern Pacific seaboard, also the first port of call for vessels inward from the Orient, Central America and the Southern Seas, and the last point at which outward bound vessels can receive orders; and

Whereas the waters of the harbor are of insufficient depth for the needs of the staple manufactures of this port, and preclude the development and progress of its industries, and are a serious impediment to the transportation of merchandise to and from the Dominion of Canada and foreign ports, which is yet in its infancy; and

Whereas this council, in accord with the owners of property abutting on the inner harbor, and with the board of trade, submitted a project to the royal commission on transportation, looking to the efficient deepening of the harbor within certain defined limits, and the beneficial utilization of the waste material excavated for that purpose;

Be it therefore resolved, that this council propose upon the federal government the undoubted claim of the port of Victoria to be considered a national port of the first importance, and urges that suitable provision be made in the estimates for the improvement of public utility that are so essential to the mercantile transportation facilities and the expansion of the commerce of the Dominion.

General Business
A communication was received from R. B. McEllicking, local manager of the B. C. Telephone company regarding the company's lines on Belleville street. He stated that the question had been taken up by a former council who had arranged a basis upon which the expense would be shared when the causeway was sufficiently settled to lay a conduit. He pointed out that it would be inconvenient and more costly to lay a conduit in Belleville street until the Government street section had been done.

Ald. Vincent thought that the work could be undertaken, as it was intended to lay water pipes; and to do this the ground must have been settled.

The communication was referred to the city engineer, city clerk, and telephone company.

The secretary of the Tourist association forwarded the resolutions that had been passed by the civic committee which advocated new and up-to-date lavatories at Beacon Hill and the Gorge park.

Referred to the park committee. Sweeney and McConnell requested a share of the city's printing.

Referred to the purchasing agent, Thos. James Bay Flats

Lee and Fraser requested that their firm be taken into consideration in selling the lots in James Bay district.

His worship stated that he had arranged with Lee and Fraser, P. R. Brown, B. Boggs, Swinerton and Oddy and Grant and Conyers, with instruction to obtain offers for all or any portion of the property. Ald. Hall suggested that all the dealers be given an opportunity. Ald. Fell was of the opinion that sufficient dealers had been arranged with, but every agent should be given a certain number of lots so that the dealers would not be competing against each other, to the detriment of the city.

M. S. Miller of Mary street, Victoria West, requested that he have his fence repaired, which had been damaged by blasting.

Referred to the city engineer for report.

Boyd and Burns, Vancouver, asked for information regarding fire hydrants

they understood the city were going to install.

The communication was received and filed and writers informed that the city has sufficient hydrants.

The city solicitor advised that in connection with the

Claim for Damages

by the steamer Sadie, a survey be made, and the contractor notified of the claim as the contract calls for removal of old piles.

The report was laid on the table. A request from the residents of Dallas avenue for an electric light in that neighborhood was referred to the electric committee.

Ald. Hall moved that a reward be offered for the apprehension of any person or persons breaking the city lamps. This was carried.

The finance committee presented accounts amounting to \$522.28, which were received and ordered paid.

The fire wardens reported the result of the tests made in Victoria West on Saturday last which in their opinion were very satisfactory and adequate for fire protection. It was suggested that a test should be made on a dry day.

His worship stated that he understood that he was to arrange for a test; yet he knew nothing about the one that had taken place.

Ald. Fullerton was of the opinion that the fire wardens were instructed to make the test.

His worship understood that Ald. Fell requested him to act.

Ald. Fell—That is right your worship. When I made the request I addressed you.

The Old Men's Home committee reported that the new home was ready to be occupied and requested that furniture be secured.

The report was received and adopted.

His Worship Impatient

His worship asked if the special committee on local improvement had a report.

Ald. Goodacre replied that it would be submitted at next session of the council.

His worship asked if any report was ready from the license committee.

Ald. Davy replied that the report was not ready.

His worship—When will it be ready?

Ald. Davy—I do not know.

His worship—It is very important that the report should be submitted at once and I would like the committee to deal with the question as early as possible.

Ald. Davy—Why is it so important? It may be within your right to appoint committees but I do not think it is your right to say when or how the report is to be made or to dictate to the committee. For my part I do not see any special hurry. The only question that has been raised is to have some of the saloons closed and that is not very important.

His motions of Ald. Fell dealing with old shacks on Esquimalt and Store street were adopted.

Farewell to Sir Henri

His worship called attention to the fact that Sir Henri Joly was leaving the city in a few days, and suggested that a farewell should be tendered him. He stated that he had seen Premier McBride who had promised the use of the assembly rooms of the parliament buildings; but he, (his worship) suggested that the city undertake the matter.

Ald. Fell moved that a farewell be arranged and that the matter should be left in the hands of his worship.

The motion was carried.

His worship called attention to the necessity of repairing Queen's avenue.

Ald. Davy called attention to the fact that many requests for work had come in from North Ward and had referred to the committee and no answer had been reported. He was of the opinion that the communications should not be pigeon holed. He was informed that the committee were unable to do anything for the want of funds.

His worship suggested that the board take up the consideration of the question of having a continuous council. He was of the opinion that a better system could be inaugurated and that the city would be enabled to proceed with civic work earlier in the year.

Ald. Fell stated that if the intention was to have old councils take up work for the incoming council the matter would never be accepted.

The meeting then adjourned.

DISEASES OF THE SKIN.

Eczema, Tetter, Salt Rheum, Ring Worm, Herpes, Barber's Itch, Itch or Scabies.

All of these diseases are attended by intense itching, which is almost instantly relieved by applying Chamberlain's Salve and by its continued use a permanent cure may be effected. It has, in fact, cured many cases that have resisted all other treatment. Price, 25 cents per box. Every box is warranted. For sale by all Druggists.

ACTIVE LIVER GOOD DIGESTION

In calling your attention to Dr. Chase's Kidney-Liver Pills it is only necessary to point to their success in the past, for they are known in nearly every home.

By means of their direct and specific action on the liver—causing a healthy flow of bile—they regulate and ensure the action of the bowels and ensure good digestion in the intestines. At the same time they stimulate the kidneys in their work of filtering poisons from the blood.

This cleansing process set in action by Dr. Chase's Kidney-Liver Pills means a thorough cure of biliousness, intestinal indigestion, torpid liver, kidney derangements and constipation.

It means a restoration of health, strength and comfort where there has been pain, weakness and suffering. It means a removal of the conditions which lead to backache, rheumatism, lumbago, Bright's disease, appendicitis and diabetes.

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, at all dealers, or Edmanston, Bates & Co., Toronto.

No use wasting time and electric light making night gowns. Robinson sells nice Flannelette ones worth 75c—on sale today at 40c; also better ones at 75c, \$1.00 and \$1.50. Robinson's Cash Store, 86 Yates street.

White Cottons have advanced but we have some beautiful ladies night dresses and chemise in cambric tucked and trimmed with embroidery worth \$1.00 and \$1.25 on sale today at 50 and 75c. Robinson's Cash Store, 86 Yates St.

Five hundred purchasers in Victoria say that the Majestic Range is the best. This just means that there are 500 Majestic Ranges in use in Victoria, and giving the highest degree of satisfaction, while it also means that the 500 ranges were purchased from Geo. Powell & Co., Cheapside, 127 Government street, sole agents in Victoria for the Majestic, where all lines of household hardware etc., may also be purchased at very moderate prices.

SPORTS

BASEBALL

Will Play Electric

The next scheduled baseball match will be played on the 26th prox., when the Victoria Fernwoods will cross bats with the Electric of Seattle. The local representatives intend rearranging their lineup, and with more practice expect to make a better showing than they have done so far this season. The Electric is a very fast "lunch," and if the local team intend to win they will have to play ball from start to finish. Regular practice will be maintained in all the match takes place, and every member of the team is requested to turn out.

American—New York-Detroit game postponed, rain.

LAWN TENNIS

Arrange Circuit

A meeting of representatives from all the lawn tennis clubs in the Pacific Northwest was held on the 18th prox., when all clubs were represented. The international tournament for this season came up for discussion, and it was decided that it will be held in Tacoma. The dates for the home tournaments were also arranged. By this the Victoria club will open the circuit with the first week in August; Tacoma has the second; Vancouver the third, and Seattle the fourth. The meeting was the most representative of its kind ever held in the Northwest, and every delegate reported their clubs to be in a flourishing condition. The local courts are being used regularly, and it is expected that when the tournament commences there will be many representatives for the local club.

LACROSSE

Victorians at Winnipeg

In a lacrosse match at Winnipeg on Victoria Day, between Regina and Winnipeg, two ex-Victorians figured prominently in the lineup. On the Regina team "Ding" Johnson was the most effective on either home, while Bert Hendon was the star performer for Winnipeg, scoring 2 out of their 4 goals. The game ended in a draw, both teams scoring 4 goals, and the match was said to be the best that has been played in the prairie capital for some time.

THE TURF

The Derby

The blue ribbon event of the English turf takes place tomorrow at Epsom. Considerable interest is being taken in this city over the race. The Tourist race has posted the latest odds quoted at "Tattersalls," which are as follows: Lady 5 to 2; Spearpoint, 5 to 1; Gorgos, 9 to 1; Malmu, 10 to 1; Sancy, 10 to 1; His Eminence, 12 to 1; White Knight, 16 to 1; others, 20 to 1.

THE RIFLE

The New Ross Cartridge

The effectiveness of the new Ross cartridge in the hands of troops may be judged from the fact that at a range of 600 yards it will penetrate a target of factory is only five feet, compared to a height of ten feet with the present service .303 cartridge.

At this range the danger zone with the service ammunition is one hundred yards wide, while with the new ammunition this is increased seven times.

The use of this ammunition, with its wonderful flat trajectory, removes the necessity of correct judgment of distances in shooting at an enemy.

THE RING

McGovern and Britt

New York, May 28.—The McGovern-Britt fight, Madison Square garden, tonight went the ten full rounds. No decision was given under the rules, but McGovern, according to many of those present, had the better of the contest.

Another Draw

New York, May 28.—The bout between the heavyweight pugilists, Gus Hubbs of Akron, Ohio, and Sandy Ferguson of Bos-

TYPES E F G.

Nature, plus habit or mode of living, are the bases of our system of physique types!

The way a man lives, the influence of his associations, etc., are all taken into consideration.

The well fleshed type of physique is usually he whose lines have fallen in pleasant places, or his fleshiness may be the result of a sedentary occupation—or a condition of the blood—a degeneration that produces fat more than ordinarily quickly.

From the construction of the body, because of the rib arrangement, the stomach is not contained by any other than walls of flesh and skin.

As the skin is an elastic covering it becomes stretched, and the abdomen increases in size. Because of this fact, and since the growth of the size of the abdomen is not regular or in proportion to the growth of the other parts of the body, the types E F G are grouped by themselves with the increase or diminishing in size of the different organs in a proportion peculiar to this group.

For stout or thin men we tailor Semi-ready to the fitting stage only. Each suit is made with outlets—the whole suit basted together simply. Made to fit perfectly and delivered two hours after.

Semi-ready Tailoring

NEW ART EXHIBIT

The New York Art Studio of 837 Grandview Street, Vancouver, B. C., is introducing their paintings in this city with considerable success. Their work has found admittance among the most prominent families and samples of same are exhibited in the store windows of Hicks & Lovick Piano Co., The B. C. Furniture Co., and The Fit-Reform, Wardrobe Co. It would pay art-lovers to inspect their work, as they employ eminent European artists.

Do You Embroider?

NOW IS THE TIME
TO PUT ON
FIRE INSURANCE
WE SELL IT
HEISTERMAN & CO.

Local News

Amherst Shoes are guaranteed all leather.

(Miners' Certificates.—All those holding free miners' certificates are reminded that they expire on Thursday next, May 31st.

Women's Auxiliary.—The regular meeting of the Women's Auxiliary society of the Provincial Royal Jubilee hospital will take place this afternoon at 2:30 o'clock at the city hall.

Museum Visitors.—An interesting fact in connection with the Victoria celebration is that during the three days of the festivities no less than 783 people visited the provincial museum, which was kept open to give all a chance to inspect the exhibits.

Diphtheria in Cariboo.—The secretary of the provincial board of health has received information that several new cases of diphtheria have appeared at Soda Creek, and a fresh supply of anti-toxin was forwarded to that point by the board of health last week.

Awaiting the Chief.—Two magnificent private cars of the Oregon Short Line railway have been sent to Vancouver to await the arrival of Mr. Jacob Schiff, the well known New York banker and a prominent official on the Southern Pacific, who is due to arrive in Vancouver on Tuesday on the Empress liner.

Sale of Fanning Island.—According to a cablegram from Suva, Fiji, the sale which had been advertised of Fanning Island has been indefinitely postponed. As the site of one of the stations of the cable, there were protests against any action that might cause the island to come under control of a foreign power and this has not improbably been the cause of the sale being abandoned.

Gordon Head Enterprise.—Dwellers in Victoria, who will soon be eating the most luscious strawberries grown anywhere on the coast, do not realize how much they owe to a pioneer grower at Gordon Head—Mr. Geoff. Vantreight, the owner of the largest and finest area of berries in the district. Young and modest, he deserves all praise for his energy and pushfulness. He has overcome many difficulties, and is increasing the area of his property.

Price of Salmon.—It is generally conceded that the price for sockeyes in the Fraser river during the coming season will be much higher than last, and one canner is said to have predicted that as much as 25 cents per fish will be paid in July and 20 cents in August, says the Vancouver News-Advertiser. The reason for the increase is that, according to precedent the salmon run will be a light one. In 1902, the corresponding year of the four-year cycle, the pack on the Fraser only amounted to 327,095 cases, and it is thought that it may be even smaller this year. The scale of prices may be fixed within the next ten days, and it is considered that if a good price is offered it may persuade many men to go fishing who would otherwise go to work in the woods. Last year only 12 cents was paid.

Duncan's Ambition.—Says the Cowichan Leader: "The business of the Duncan interview Mr. Goodfellow on Wednesday last having the suburban train run as far as this station instead of stopping, as it does now, at Shawnigan Lake. Some strong representations were made and a committee appointed to draft a letter so that Mr. Goodfellow could put the matter before his company in a business way."

Woman's Auxiliary to Missions.—The annual meeting of the junior branches of the Women's Auxiliary will be held tomorrow (Wednesday) afternoon in the Cathedral schoolroom at 4 o'clock. The reports of the year's work will be read from the various branches, and an address will be given by the Rev. J. Grundy upon China. The prizes for the examination recently held will be presented by the Bishop, and tea will be provided.

Mr. Goepel Invests.—W. J. Goepel, provincial government auditor, visited the Wilmer and Windermere offices officially last week. While here, says the Wilmer Outcrop, Mr. Goepel added another large farm to his big land holdings in this district. This time he purchased Felix Lavaree's ranch, on the east side of the river, and left Mr. Lavaree in charge to put in a crop, also to fence the whole 300 acres, break up more land and make other improvements. Mr. Goepel has rented for the season the farm he bought last year from Charles Cartwright, and has also arranged to fence and otherwise improve his two ranches south of Fairmont.

Leather-drying Process.—The first automatic leather-drier ever installed in British Columbia is now being placed in position in the Fraser River Tannery by Messrs. Henrich & Pace, of Revelstoke, says the Columbian. This drying machine consists of a large blower, to which an engine is attached and fifteen hundred feet of pipe. The air is drawn through the building. Hides in the course of tanning are hung in the room where the blower is situated, and are dried by the warm air. By the ordinary process hides take from three weeks to a month to dry, but when the new machinery is in operation the hides will dry in one week.

Rates on Lumber.—Seattle railway men are expecting a compromise between the transcontinental roads and the lumbermen of the Pacific Northwest on the proposed changes in the minimum weight schedule. It was stated at the traffic offices of the Great Northern on Wednesday that the roads would insist on the change in schedule, if it is established by the lumbermen, that it is impossible to make the loads required by the proposed schedule. The committee of the mill men selected some time ago to prepare data on the question claim to have found the weights impossible, and it is expected that a compromise will be reached at the St. Paul conference.

Fire at Kitimaat.—The Indian Girls' Home at Kitimaat was totally destroyed by fire on Sunday last, and many of the children are partially homeless. The loss is estimated at \$2,000. News of the fire was brought by passengers arriving from Kitimaat on the steamer Tees. The home, which was a three-story structure, was built at Kitimaat a few years ago, and was controlled by the Methodist church. It is understood that insurance amounting to about \$1,500 was carried on the building and contents. There were about 35 girls in the home, which was in charge of Miss Long and Miss Jackson.

Cutting Seized Timber.—"There will soon not be any logs to law about," remarked Timber Inspector Skinner in an interview at Vancouver, when asked about the Emerson logs which were seized some time ago under the anti-export clauses passed by the legislature. Mr. Skinner explained that a considerable quantity of the seized timber had already been cut at some of the local mills and some at Mr. Emerson's mill at Bamnet. The government would not follow up that timber. If it was cut at a British Columbia mill it was no longer liable as regards the export clause, and nothing more would be said about it. As regards that portion of the timber there would be no further action as regards cost of seizure, or anything of that kind.

Farmers' Happy.—John Murray, provincial timber ranger, who has just returned from a month's trip to Lillooet and the Okanagan, made it a point of the closing of the fiscal year on June 30th. "Farmers and ranchers in the interior are tickled to death with the large amount of rain which is falling there," Mr. Murray remarked. "The amount has been unusual for this time of year, but it was very welcome as everything was badly dried up. Now we are looking west and down in the lower portions of the dry belt, hay is about to be cut. People are pouring into the Okanagan, and the whole country is looking good. While there I met Hon. G. H. Bulyea, governor of Alberta, who is an enthusiastic believer in the district, and who has a large farm at Peachland. He was with quite a party. The interior is looking very well just now."

Imperial Military Sale.—Acting under instructions from Lieut. Wight, ordnance officer, Wm. T. Hardaker, the auctioneer, will sell on Monday next, at 11 a.m., at Signal Hill, Esquimalt, a quantity of military stores, including nine cases (suitable for buoys), cast-iron sinks (suitable for mooring), about 28,000 yards of submarine electric cable, 6 dump carts, steel standards, 1 plough, portable force, 4 cable runs, rope, six sets of carpenter's blacksmiths', plumbers' and tinsmiths' tools and tool chests, tarpaulin, masons' and bricklayers' tools, machinists' tools, coopers' tools, wire rope, chains, shackles, buoys, electrical gear, grindstone, rubber goods, zinc, copper, brass, wrought and cast iron, gun metal, 27 pairs new leather knee boots, new serge suits, old clothing, 40 new knapsacks, buff straps, large quantity of oars, etc. 1 hydraulic testing apparatus with pump, 1 39-foot diagonal built boat, 1 16-foot dinghy.

Do You Sleep?—On a mattress that needs repairing? If so, phone 718 or call and we will make it as good as new. Smith & Champion.

The celebrated Ashley Strawberries now on sale at my own store. Mrs. M. A. Farrington, Florist, 74 Government street. Fresh daily.

The postcard hit in England now on sale in Victoria. The multiple postcard, fourteen front views on one card. Victoria Book & Stationery Co., Ltd.

Use telephone to Laderna.

Anglican Synod.—A meeting of the executive committee of the Anglican Synod will be held this afternoon at 3 o'clock at the Synod office, Fort street.

Grand Trunk Pacific Supplies.—The commissioners of the transcontinental railway at Ottawa are calling for tenders for 65,000 tons of 80-pound steel rails, the necessary fastenings, and 1,545,000 railway ties.

Sir Henri Better.—There will be general pleasure felt at the announcement that Sir Henri Joly de Lotbiniere, who has been somewhat indisposed for a few days past, is now almost recovered. His son, E. G. Joly de Lotbiniere, arrived yesterday, and will assist his father in making ready for leaving Victoria for the east. He will accompany Sir Henri to his home in Quebec.

For Thibert Creek.—On Sunday evening a large party left by the Princess Beatrice for the Thibert Creek mines. Warburton Pike went north with a small party some weeks ago. Those who left Sunday evening will complete the staff at the mines this summer. There will be about 60 men engaged.

Exciting River Trip.—James Turtle, one of the party of American miners who are developing a molybdenum property at the head of Pitt lake, had an exciting trip down the Fraser last week. Leaving the camp on Monday he arrived at the lake just too late to catch the weekly steamer. Being anxious to come down to the coast without delay, he constructed a light raft of logs and started to float and paddle down stream. He accomplished the trip from Pitt lake to this city in two days and nights, after several exciting experiences.

Provincial Police Praised.—In a letter received yesterday morning by the attorney general's department from Hon. Chas. Fitzpatrick, minister of justice, respecting the efforts of the provincial police in securing the arrest of the train robbers, the minister expressed praise in unstinted terms and concluded: "I think you will agree with me that it is of the highest importance in a country situated as Canada is that those border ruffians should be taught that the Dominion is no safe place for them."

Boundary Survey.—Among the passengers sailing by the Beatrice on Sunday evening was White Fraser, who has been engaged for two seasons past in connection with the locating of the Canadian-Alaskan boundary. He will, this season, be engaged in the work of checking the line arrived at by a United States party last year. R. Smith, formerly of the Royal Bank staff in this city, has gone north with Mr. White Fraser. The latter will have no other assistants during the summer.

Hill's Visit Postponed.—Vancouver people were looking forward to a visit from James J. Hill, the great railway magnate very shortly. The board of trade council was to have held a meeting on Saturday afternoon to arrange for a luncheon in Wood arrived, however, that his visit to the coast has been indefinitely postponed. The announcement was made in connection with his visit, that grading was to be commenced in North Vancouver, on the V. W. & Y., in less than a fortnight, but this was denied at the office of the railway company. Mr. Hill is to speak at a meeting at Ottawa on Monday next.

Tonight's Dahl Concert.—The seat plan for the concert to be given at Institute hall this evening by the famous Norwegian singer, Olivia Dahl, assisted by Miss Gina Smith, pianist, and the Margherita Mandolin Orchestra, is at M. W. Waitt & Co.'s, where reservations should be made as early as possible today. The concert will be given by phone (number 194), by all who desire to enjoy a true musical treat, and to assist a sterling artist who has suffered very severe losses incidental to the San Francisco earthquake of which she was one of the victims. The reserved seats are 75 cents and \$1.00, according to location; unreserved seats, 50 cents.

Immigration Literature.—Yesterday a large amount of immigration literature was forwarded to the office of the agent-general in London. The demand for bulletins and pamphlets is increasing rapidly. A parcel of literature for the provincial bureau of information left New York on November 2, 1905, and has not yet arrived. It was addressed by the consul-general of Mexico to Victoria, Newfoundland, in error because there is a river of that name in the ancient colony. On the mistake being discovered, instructions were sent to Halifax, N. S., where the parcel is supposed to be about March 21, for its forwarding here but, so far, it has not reached its destination.

Ladies Musical Club.—The programme for the concert to be given under the auspices of the Ladies' Musical club tomorrow evening at the Institute hall has been carefully selected. The ladies in charge express the hope that all interested, who are not already members, will attend as a pleasant time is assured. An admission of 25 cents will be charged for non-members. The officers of the club who are superintending the arrangements for the forthcoming entertainment follow: Hon. president, Mrs. Powell; president, Mrs. Hermann Robertson; first vice president, Mrs. R. Nash; second vice president, Mrs. E. Green; secretary, Miss Violet Powell; treasurer, Miss Lugin; programme committee, Mrs. H. Pooler, Mrs. H. Young, Mrs. G. Phillips, Miss Flumerfelt; general committee, Mrs. Tilton, Mrs. Lang, Mrs. Arundale, Miss Pemberton.

Dr. H. B. F. Clifton of Paris, the celebrated doctor on Beauty Culture, has appointed Mrs. Winch his representative for his French Toilet preparations, including Hair Destroyer, Hair Restorer, Hair Tonic and Cell, kills the hair bulb, and ends your superfluous hair. It is the only preparation that is true to its name, and can be fully appreciated by those that have tried worthless imitations. And it removes wrinkles, smallpox pits, also any discoloration of the skin, makes old faces look young again. Hair Elixir for all hair trouble, will positively restore gray hair to its natural color. Obesital, a sure reducer of fat. Dermatitis Beautifier removes pimples, blackheads, oily skin, coarse pores. Cutis Castile Soap, Best Dental Cream, 25 cents. Ladies and gentlemen are invited to call 134 Chatham street, near Quadra.

SEAMAN DROWNED OFF HARBOR ENTRANCE

Decorated Skiff Capsized Throwing Crew of Three Into The Water.

ONE DROWNED BEFORE RESCUE CAME

Two Others Were Picked Up by Dallas Road Residents With Small Boat.

Buttery, an able seaman of H. M. S. Shearwater, was drowned on Sunday night off the entrance to the harbor as a result of the upsetting of a decorated skiff, rigged as a miniature brig. Gall and Brampton, two other seamen of the Shearwater, were rescued after being in the water for about 40 minutes. The three seamen brought the skiff from Esquimalt where they rigged it as a model man-of-war to take part in the regatta at the Gorge and the subsequent water carnival of Saturday night. It had been towed as far as the inner harbor by Mr. Day's launch on Sunday night and on Sunday the seamen came to take the boat to Esquimalt. The weather was not rough and no danger was anticipated. After leaving the inner harbor the three sailors landed at Work point and continued their trip about dark.

About 9 p. m. Mr. Best, clerk of the Dallas hotel, and others, heard shouting. At first they were unable to locate the direction, but it soon dawned upon them that the shouts were cries for assistance, obviously from the water. Mr. Ben Phillips, who lives on Dallas road, put out in a small boat with Messrs. M. S. Gordon and F. N. McFarlane. They pulled hurriedly in the direction of the cries for aid, and found the two seamen, Gall and Brampton, struggling in the water. They said Buttery had drowned about five minutes before the rescuers came.

Mr. Best in the meantime, telephoned for Dr. Milne and Dr. Hart. Hart arrived first in his car, and directed the resuscitation of the two seamen who were almost unconscious as a result of the privations endured in the chilly water. When they recovered the two survivors said they were at a loss to account for the upsetting of their craft, unless it was due to their leaning too much to one side while paddling. When the boat went over it seemed to roll once or twice and they had to strike out clear of the vessel to avoid being caught in the rigging. They were all strong, athletic men, particularly the drowned seaman, who was known as an athlete and gymnast. All were good swimmers.

Gall struck out toward the shore which was not more than 200 yards distant. He reached the kelp patches which are thick in that vicinity and waded at once the kelp and attempted to swim through them. He then returned to the skiff where Buttery and Brampton were still struggling, clinging to the upturned craft at times, and then swimming free to avoid the rigging as it threatened to entangle them. They shouted as loud as possible for assistance, but no help seemed to come. Then Gall struck out again for the land, but on reaching the kelp he again turned back. They were becoming weaker and weaker. The struggle seemed to grow more desperate.

"I'm going to swim ashore," said Buttery then. With that he started to swim shoreward. Twice he shouted, "All right," at intervals. Then there was silence.

The other two struggling desperately to keep themselves afloat, and shivering with the cold which was numbing them, shortly afterward heard the shouting of rescuers, then the welcome sound of oars and the ripple of the water against the bow of the coming boat. It came just in time. The two were exhausted. The rescuers dragged them into the boat and hurriedly rowed them to shore. The two men sank like logs in the bottom of the boat and were

lifted out and assisted into rooms at the Dallas hotel, where many willing hands rubbed life into their chilled bodies, and applied restoratives. In the meantime, Robert Tait and his son rowed about the scene of the accident, vainly seeking the missing man.

Meanwhile, telephone messages had been sent to Esquimalt, advising the officers of the Shearwater of the accident, and search was started for the missing man. Mr. Day's launch, which was requisitioned, cruised, with a powerful acetylene searchlight in her bow, until the early morning visiting every possible point along the shore, but no trace of the missing man or of the boat, could be found. The steam launch of the Shearwater was also brought into use, and this too, failed to discover any trace of either man or boat.

When the two survivors recovered this morning, they were taken to the Shearwater by a petty officer who arrived from Esquimalt. They were seemingly not suffering as a result of their experience. One of the survivors, Gall, was recently rescued from drowning while the Shearwater was on a northern cruise, he having fallen overboard while the vessel was at Gardner's inlet.

OBITUARY

There was a very large attendance of representative citizens, friends of the deceased, at the funeral of the late Capt. John Devereux, which took place on Sunday afternoon, from the family residence at 2:30 o'clock and later from the Reformed Episcopal church, where services were conducted by the Rt. Rev. Bishop of Cridge, assisted by Rev. T. W. Gladstone. The floral emblems were very beautiful. The following acted as pallbearers: W. J. Taylor, K. C., D. M. Eberts, K. C., Major Dupont, Gavin Burns, E. Crow Baker, C. Lowenberg, Capt. James Gaudin and D. Greaves.

The remains of the late Mrs. Margie West were laid to rest yesterday afternoon. The funeral took place from the family residence, corner of Carr and Dallas road at 3 o'clock, where service was conducted by the Rt. Rev. Bishop of Cridge, assisted by the Rev. T. W. Gladstone. There was a large attendance of friends. The many beautiful floral emblems testified to the esteem in which the deceased was held. The following acted as pallbearers: H. A. Porter, W. W. Runnalls, F. T. Penzance, S. Williams, H. L. Salmon and F. H. Worlock.

On Sunday afternoon the funeral of the late Miss Ida May took place from the parlors of W. J. Hanna, Rev. Dr. Campbell conducted the services, and the following acted as pallbearers: Messrs. A. McKel, L. McArthur, W. Drysdale and J. Mantion.

There was a very large attendance at the funeral on Sunday of the late John Gardner, which took place from the Roman Catholic cathedral. His Grace Archbishop Orth officiated and was assisted by Rev. Father Fredricks. A large number of the members of the Eagles attended in a body, and marched to the cemetery. Beautiful floral emblems were presented. The following acted as pallbearers: Joe Waechter and Richard Wood, and those of the fire department were as follows: Chas. Palmer, H. Norman, T. Collins and A. Gillmaster.

CRIPPLED BY KIDNEY DISEASE.

"I was troubled for years with kidney disease and Dr. Chase's Kidney-Liver Pills have entirely cured me. When I began the use of these pills I could only walk from my bed to a chair. Now I can go to the field and work like any other man." Mr. W. H. Mosher, South Augusta, Greenville County, Ont. This statement is certified to by the Rev. E. H. Emett, Baptist minister of Brockville, Ont.

Rock Guessing Contest.—The following are the fortunate winners in Morris' Rock Guessing contest: 1st, Ellis and Wood, 37 pounds, 10 ounces, 13 grains; second, J. A. Cates, Vancouver, 37 pounds, 10 ounces, 9 grains; third, Alex. Stevens, 37 pounds, 10 ounces, 6 grains. For fourth place the following tied with a guess of 37 pounds: Arthur Slater, T. C. Nelson, T. J. Arnall, A. P. Man, fifth, E. G. Morter, 37 pounds, 10 ounces, 107 grains; sixth, T. J. Arnall, 37 pounds, 10 ounces 109.38 grains. The certified weight of the rock is 37 pounds, 10 ounces, 39 grains. The guesses varied from 5 pounds to 500 pounds.

State of Ohio, City of Toledo, ss.

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the city of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O. Sold by all Druggists, 75c. Take Hall's Family Pills for constipation.

TRIAL AGAIN POSTPONED.

Trial of ex-Chief of Ladysmith Police Before Assizes at Nanaimo.

Nanaimo, May 28.—(Special)—The assize court opened this morning with Justice Duff presiding. The only case was that of Halmy, ex-chief of police of Ladysmith, charged with stealing one hundred dollars from A. S. Thomson while he was arresting him for being drunk. The case was up at last to assize and was laid over on account of technicality being raised by defendant's solicitor that prisoner had been dismissed by a magistrate and was re-arrested on the same charge and convicted by the same magistrate. It stands now at rest out of the court of competent jurisdiction. Mr. Justice Martin set the case aside and it appears some time afterward. His lordship filed with the registrar of the court a judgment in the case and the court held that as the matter was before Mr. Justice Martin it was not legal to bring it up before another judge and Justice Duff refused to try the case. Consequently it was again laid over until next assize, prisoner being placed under two securities of \$250 each and himself in \$500.

A Growing Business.—With increased trade consequent upon a great consumption by the local market, Messrs. J. P. Brothers and Co. have excelled biscuit factory have placed orders for additional machinery, including a five barrel dough mixer. The firm is also advertising for additional help in both their confectionery and biscuit departments, and can employ several girls for chocolate dipping and biscuit packing.

Ellis Spring Needle Underwear
fits perfectly—under all conditions.
Made on the only machinery of the sort in Canada. Every stitch is of equal length, smooth, close, firm, elastic and durable.
The ordinary latch-stitch used on other underwear is not uniform—the shorter stitches strain the material—there's no spring to it.
Ellis Spring Needle Ribbed Union Suits are particularly desirable for summer wear.
Cool summer weights. For men and women. Ask your dealer. And write for free booklet—with sample of fabric.

FINE PROGRAMME FOR THIS EVENING

The Benefit Concert by Norway's Foremost Singer Promises a Rare Treat.

At the Inskute Hall this evening—the Victoria theatre being held by the Lyceum Stock company—lovers of music will have the opportunity of hearing a young lady who is regarded as the finest singer of Norway, and who, in the wonderful music of Grieg, her countryman and instructor, is without a peer on the world's concert stage.

At the same time tonight's audience will have the pleasure of again hearing the Margherita Mandolin orchestra, under the leadership of Professor Er-

MISS GINA SMITH

nesto Claudio, an organization whose musicianship should be a matter of pride for all Victorians, and Miss Gina Smith, an exceptionally fine pianist from Del Rapids, Wis. Miss Smith being a daughter of the famous concert pianist and teacher, Frau Anna Stron-

THAT STAB-LIKE PAIN IN THE SMALL OF THE BACK COMES FROM THE KIDNEYS AND CAN BE CURED BY DOAN'S KIDNEY PILLS

It is not the back that is aching, but the kidneys which are situated beneath the small of the back.
Therefore, dull pain in the back, or sharp, quick twinges, are warnings of sick kidneys—warnings of kidney trouble. Plasters and liniments will not cure a bad back, for they cannot reach the kidneys which cause it. Doan's Kidney Pills reach the kidneys. That is what they are for and that only. So, if you would be free from backache, swelling of the feet and ankles, frequent or suppressed urine, painful sensation when urinating, specks floating before the eyes, frequent thirst, brick-dust deposit in the urine, or anything wrong with the urinary organs or bladder, you must keep your kidneys well. Help them to work freely, and help them to flush off all the body's waste and impurities.

Doan's Kidney Pills are made from the purest roots and herbs, and have a remarkable healing and toning effect on the kidneys. Mrs. Barling, 26 Locomotive Street, Hamilton, Ont., writes: "I had been troubled considerably with my kidneys, using many remedies, but finding no relief. I tried Doan's Kidney Pills and found them to act directly on the kidneys, and making them strong again."
Price 50 cents per box, three boxes for \$1.25. All dealers or The Doan Kidney Pill Co., Toronto, Ont.

from the artistic entertainment arranged, patrons of this evening's concert will incidentally become contributors in a good cause, the Misses Dahl and Smith having suffered very seriously by the recent earthquake and fire in California, and being now on the eve of re-commencing their professional tour of America so unhappily interrupted. Under all the circumstances it is sincerely to be hoped that not a vacant chair will be left in the hall when the two artists appear before the footlights. In order that none may feel the patronage of this concert a too-heavy impost upon the purse, the price of seats has been graded—\$1.00 for the best reserved seats, 75c for centre of the hall, and 50c for general and unserved admission.

Olivia Dahl is at the present time a comparatively unfamiliar name to American music-lovers. In her own country Miss Dahl is a prime favorite, and when she took leave of Christiania to accept engagements as soloist at the Cincinnati and Minneapolis festivals, she was accorded a farewell of almost national character, all the celebrities attending, as did also the then reigning monarch, King Oscar, and his court. Since her advent in America she has won the critics in every city in which she has sung, including New York, Boston, Pittsburgh, Cincinnati, Minneapolis, San Francisco, Salt Lake, and Denver. It is the Rocky Mountain News of the last named city which, in the course of a notice of the Dahl concert, says:

"Before the concert was half over the audience were aroused to such enthusiasm by the beautiful voice and charming presence of this stately Norwegian girl that they demanded an encore at each number's close. And no wonder, for in addition to possessing a remarkably fine mezzo-soprano voice, Miss Dahl has an exceptionally pleasing stage presence, and her songs were a pure delight to all who heard them. Her first encore, in response to a splendid rendition of 'Tagliatore's' 'Quand l'Oiseau Chante,' the second from 'From Monte Pincio,' the latter being perhaps the finest thing on the programme. Elling's 'Jeg vil ad'

was another number which brought out with telling effect the dramatic power of the singer, as did a Spanish song by Paladillo. But it was in the folk songs of the north that Miss Dahl fairly captivated her audience, and they clamored for more and more. The half dozen on the programme seemed only to give them a taste for others. Dressed in the national costume of Norway, singing the songs that perhaps all of them had known from childhood, she seemed to appeal to her hearers for more than as the beautiful young woman in evening gown."

In order that no part of the enjoyment of the concert may be lost, translations are furnished of the folk-songs for this evening's concert, and the programmes will be found something in the way of models for entertainments of the kind. The selections decided upon are as below:

- 1—Melodie, Spanish Serenade Ch. Acton, arr. E. Claudio Margherita Mandolin Orchestra.
- 2—(a) Lord, I Am A'Weary Melartin (b) Rose of June Edward German (c) Irish Lullaby Adelaide Needham (d) Quand l'Oiseau Chante Tagliafico Olivia Dahl.
- 3—On The Mountain Grieg
- 4—Selection from "Lucia di Lammermoor" Puccini arr. E. Claudio Margherita Mandolin Orchestra.
- 5—(a) Allah Chadwick (b) From Monte Pincio Grieg (c) Det Forste Mode (The First Meeting) Grieg (d) Spanish Song Paladillo Olivia Dahl.
- 6—Carnaval Grieg Ginn Smith.
- 7—Folk-songs (suite of four in costume) Grieg Olivia Dahl.

God Save the King.

GAINED 10 POUNDS.

"I was all run down and could not do my own work. Everything I ate made me sick. In nursing others I had seen the good result of Dr. Chase's New Food and resolved to try it. As a result of this treatment I have gained ten pounds, do my own work alone and feel like an entirely different person."—Mrs. H. A. Loynes, nurse, Phillipsburg, Que.

SUSPECTS NOW HELD ON VAGRANCY CHARGE

Alleged Pickpockets are Being Detained in Order to Get More Evidence.

The three alleged pickpockets, Frank Fanning, John Gray, and James Spencer, one of whom has been identified as John Wilson, alias H. Ordng, who was arrested at Tacoma in June, 1905, for picking pockets, who were arrested after being surprised by the detectives when dividing money presumed to be the proceeds of their work during the celebration were brought before Police Magistrate Hall yesterday morning and charged with vagrancy. They were remanded until Thursday, when it is probable that a further charge of stealing will be made against the trio. There were five in all when the detectives caught them as they were dividing the money in a Government street doorway. Detectives Sergeant Palmer and Detectives Perdue and Macdonald closed with the men and each grabbed one. Two others broke and ran, leaving the officers struggling with the three, as stated in Sunday's Colonist. They put up a desperate, but futile fight. In the meantime Mr. Finlayson, who happened to be near, started in pursuit of the other two. Mr. Nesbitt, seeing him running, thought he was one of the men the police were after, and he started in pursuit. He caught up with Mr. Finlayson while the latter was fast gaining with the alleged pickpocket on Pandora street and grabbed the athlete. The two were scuffling for some minutes before Nesbitt realised that he had grabbed the pursuer of the pickpocket. Instead of the alleged pickpocket, he had the man who was carrying considerable money on his person, sewed in the lining of their clothing. They also had rolls of bills in their hands; in fact, were seemingly dividing money. The five, with two women, are said to have been living in a house in Work estate. Complaints had been made to the police by victims earlier in

the day, and descriptions were given which point to those arrested being the guilty persons.

In the police court this morning an underworld quarrel in which some unprintable language was alleged to have been used by the proprietress of the London hotel and two women, one of whom was taking her belongings from the hotel. The proprietress, Mrs. Thiele, charged Flora O'Toole and Effie Greenwood with creating a disturbance, but it was shown in evidence that the alleged bad language had been a retort to equally bad language, and the magistrate dismissed the case, which, he said, should never have been brought into court.

Robert Rutledge, convicted of stealing a ring dropped on board the steamer Charnar about two weeks ago, was sentenced to two months' imprisonment. Three drunks were each fined \$3.50.

For this morning an assault case, in which one Greek, Vilettarios Stamanadarios is accused by another Greek, Vilettarios Pavlou, with assault, is set for hearing in the police court.

On Sunday night a woman shouting hysterically that two men were holding her in Victoria against her will attracted the attention of numerous people on the corner of Fort and Government streets. Constable Fry was called and investigated the matter. The story told by the woman was to the effect that she had been brought unwillingly from Seattle by the man who came to run a weighing machine during the celebration and another, and they refused to allow her to return home. Investigation showed this was untrue. She had wanted to return to her home at Tacoma, but the men had coaxed her not to go by the Indianapolis and had hidden themselves until just before the Princess Victoria sailed. The girl was depending upon them for the money to pay her fare. The two were found as the steamer was leaving, and the girl then became hysterical. The weighing machine man agreed to give her three dollars for her fare home. The girl was then taken in charge by a Salvation army lassie, and left for home yesterday.

Highly Recommended by a Well Known Victoria Man.

Victoria, B. C., Oct. 19, 1905.

Dear Sirs—I highly recommend your SAXON OINTMENT. I have used it on two different occasions, and if given a fair trial I do not think there is anything better on the market for Eczema or any sores that are hard to heal. I had one of the worst cases of Eczema, and I tried every kind of salve, and also doctors, without success. I think everyone should have a box of it in the house. I remain yours truly,

Needs Attention.—A wooden grating in the sidewalk on Johnson street is causing the foot passengers on that thoroughfare considerable anxiety. The grating has become so weak and gives with the least weight and those doing business in that neighborhood are expecting an accident at any time.

Newall-Wilson.—Yesterday, at St. Paul's manse, Frederick street, Victoria West, the Rev. D. Macrae united in marriage Mr. John Brodie Newall, of Victoria, and Miss Mary William Wilson, of Dalhousie, Scotland. Mr. and Mrs. Newall will make Victoria their home.

Gin Pills Cure Kidney Troubles.

OR YOUR MONEY BACK.

Read this letter from Mrs. Gargill. Has it not the ring of truth? Does it not describe your own sufferings? And does it not point the way to quick relief?

"For three years I suffered more than I can tell with terrible pain in the small of my back. When stooped over, it seemed as though I would never be able to straighten up. I tried Kidney Pills for a year and a half, but was getting worse all the time, until advised by my neighbor to try 'Gin Pills,' as she had been almost similarly affected, and had been completely cured by them. I took three boxes of Gin Pills, and almost from the first dose I began to feel better. Now I am pleased to say I can do as good a day's work as ever in my life without feeling tired out. Before getting Gin Pills I had to have a girl to do my housework, but now I can do it all myself, including the washing. I will always recommend Gin Pills for kidney trouble."

"MRS. GARGILL, Winnipeg, Man." Don't suffer the agonizing tortures of Kidney Trouble. Don't let it run into dreaded Bright's Disease. Cure yourself now with Gin Pills—the pills that guarantee that cure or you get your money back. 50c box—6 for \$2.50. If you will write asking for it and tell us the paper in which you saw this we will send you a trial box of Gin Pills absolutely free. The Bole Drug Co., Winnipeg.

The sailing fleet for Bering sea is being made ready. Crews are being selected for the various schooners, probably twelve in number, nine belonging to the sealing company and three independent schooners. The schooners are now preparing for the northern cruise are the recently purchased Markland, Capt. George Heuter, which will ship an Indian crew at Clayoquot, Libbie, Capt. W. Heuter, Carrie C. W. Capt. Gould, Otto, Capt. Byers, Zillah May, Capt. Delouchrey, Ida Elita, Capt. H. Brown, Allie I. Alger, Capt. D. G. Macauley, and Dora Siewerd, Capt. R. McKiel, of the Victoria sealing company's fleet, and the Eva Marie, Capt. Jacobson, Jessie, Capt. Hann, and the Uman, Capt. All these vessels will carry Indian crews, and the first of the fleet will probably sail north within the next ten days. The start north will be made earlier this season. Last year the first schooner did not leave for Bering sea until the third week of June.

THE SELKIRK EXPECTED.

Will Probably Reach Port Today for Repairs.

The steamer Selkirk, recently wrecked on Jones island and saved by Capt. Bisset in a manner which won him considerable praise, is expected to be brought to port this morning for repairs. The Selkirk after striking on the currents ran very swiftly. Capt. Bisset sent the Selkirk to the wharf under the hull and with two scows the steamer was buoyed up and carried, still submerged and resting on the chains supported on the scows, to the vicinity of a sandy beach a considerable distance away. There, with each successive tide the steamer was lifted from the water, and yesterday was temporarily patched for the trip to Victoria. The freighter is expected here today.

THE MARIECHEN IS DUE.

The Big German Tramp Steamer Is Expected Today.

Steamer Mariechen, which was saved by the wrecking crew of the British Columbia Salvage company with their steamer Salvor from the rocks on which the steamer was stranded at False bay, Alaska, and temporarily repaired at Juneau for the voyage south is expected to reach port today or tomorrow in tow of the Salvor. The Mariechen will be taken to Esquimalt and placed in the dry dock which ends the salvage contract successfully carried out by the Salvors of Esquimalt. For this the company receives \$37,500. When the steamer is in the dry dock, a survey will be made at the instance of the underwriters and the surveyors will draw up specifications of the repair work necessary to the steamer, which is considerable. Upon these specifications tenders will be called for the work of putting the vessel in satisfactory condition. This work will probably cost much more than the price of the salvage, and will involve considerable work for a large force of workmen. The Esquimalt firm will be one of those bidding for the work, and will probably have a good chance of securing the work.

THE RECORD BREAKER.

Steamer Dakota, Noted for Unmade Records, Reaches Seattle.

Steamer Dakota of the Great Northern line, the 14 knot steamer which a Seattle newspaper falsely stated had made a record passage across the Pacific, beating the time of the 19 knot Empress, reached Seattle yesterday from the Orient. She did not make a record. The steamer was over thirteen days from Yokohama. The record of the Empress of Japan, which is due today from Yokohama, which port she left on May 18th, is 10 days and 10 hours. The steamer Teucer, which came from Tacoma to discharge the four boilers and the machinery brought from Glasgow for the new steamer Princess Royal and other local freight, and to load the shipments from this port for the U. K. and Orient, left for Vancouver at 1 o'clock this morning. The Teucer

40 cents per pound.

DAILY FASHION HINTS

Published by The Colonist by Special Arrangement With the American Fashion Company, 853 Broadway, New York.

One of the smartest fads of the moment is the cloth gown with lace blouse, and a striking example of this fashion is shown here. Face cloth in the new hat called motif—a deliciously soft cream—is used, the blouse being as near the same shade as it is possible to match cloth and lace. Tuck-lug plays an important part in the trimming of the skirt, both pin and wide tucks being used effectively and bordered with motif silk braid. The fulness about the hips is laid in stitched tucks. There is a skeleton bodice of cloth fastened over the

laid blouse and the elbow sleeves are strapped with silk braid. Completing the costume is a charming fasci straw copied after the new English hats and trimmed with huge pink silk roses. At the back the bodice is covered with maline rosettes, from which a white paradise algrette emerges. Nothing adds to the elegance of the separate skirts so much as do these lace blouses, which come in a large number of designs, and the fad of dyeing the lace to match the dress has lost nothing of its favor by its long stay with us.

STARTLING VIEW OF SAN FRANCISCO

E. E. Shephard a Noted Writer and Newspaperman Takes Gloomy View.

THE CITY WILL BE SLOW TO RISE

Next Generation Will Have to Complete the Work of Rebuilding.

"At the best rate of progress that could be made, it would take eight or ten years to rebuild San Francisco. At the rate of progress shown, the next generation will have to complete the work."

This is the view of Mr. Edmund E. Shephard, the well known Toronto editor, writer, traveler and former trade commissioner for Canada to California, Mexico, and Brazil, says the Vancouver Province.

Mr. Shephard is here from San Diego, where he spends his winters, and is returning to his home city, Toronto. When seen by the Province he was in a happy mood, but his view of the sad southern capital, so different from current opinion and report, fairly startled some of his friends yesterday on the balcony of the Hotel Vancouver.

"You know I am not a pessimist," he appealed to one, and then another, "I would like to be as optimistic as the press—the San Francisco press. But I can't see it their way."

For instance, when I was there last Saturday the papers said there were a hundred and fifty thousand in the bread line. Well, I think I would exaggerate if I said there were two thousand in the excavating and cleaning up line. That is the line that counts in

the rebuilding of a burned-out city.

"What of the enormous projects to rebuild the city on improved lines?" asked one.

"You see signs of public enterprise in the clearing of debris from the streets, but in that whole vast burned-out area you see no indication of individual enterprise such as preparing a lot for re-occupation. You see signs after signs such as '40 by 120 to lease for a term of years,' but no rebuilding."

Not Be Put in Words

When asked for a "description," Mr. Shephard replied:

"Impossible! You can't convey in words any impression of that scene of desolation. A burned out timber limit where there is neither bird nor dog nor anything! Old Tyre and Sidon, a place for the drying of nets! Or if—well no; as I say, it is impossible."

Again referring to the little evidence of enterprise, the few signs of rebuilding, Mr. Shephard said:

"The impression that the earthquake did little damage, that fire did it all, Mr. Shephard corrected in his own way. 'I saw a concrete structure leaning up against a frame building like a pair of drunken sailors in the street, neither daring to move for fear the other would drop. Neither of these buildings had been touched by the fire, yet both were unoccupiable. The only way to repair them was to tear them down. This sign of the earthquake was but an interruption of the absolute desolation. The eye, as far as it could reach, found nothing that a family or business man could occupy. The whole business seems to have been burned to a crisp. Basements are occupied by burned bricks, gaspines and the like. Nothing stands up.'

"Looking over the hill, including Nob hill, the streets appear as suspenders over shoulders, nothing at all on either side. The San Francisco business man appears to have quit and his clerks and customers with him."

Those Strikers Must End Now

"There is one satisfactory thing, however, about the earthquake, as one man said to me—the longshoremen, stevedores and carters will have to quit striking."

ALL THE WAY FROM RUSSIA

The following is one of the hundreds of enquiries received in connection with the special "Booster Club" offer of The Colonist in the interest of a revived campaign of publicity.

Warsaw, Russia, 20th IV, 1906
 Dear Sirs
 I have a honour to pray you
 to be so kind as to send me a copy
 of Special Edition of The Victoria
 Daily Colonist, entitled: "See
 The Island First" containing
 the fullest information for
 intending settlers and describing
 all about Farming, Mining,
 Lumbering etc. in the Van-
 couver Island.
 Yours very truly,
 A. Nechaev
 Warsaw, Russia.
 Glota Street, No 58, 3.

ONLY TWO MORE WEEKS

The Special Immigration Promotion Offer of THE SEMI-WEEKLY or SUNDAY COLONIST for 55 cents for one year to any foreign address terminates with the present month.

Already hundreds of names have been added to the thousands living outside the Province who regularly read of Victoria through the medium of The Colonist, and before the end of the month hundreds more will be added.

Constant dropping wears away the stone, and 104 consecutive issues of a ten and twelve-page paper reaching any likely investor or settler in one year must have a decided influence in attracting capital to Victoria and Vancouver Island.

THE OUTLAY IS SMALL

THE POSSIBLE RESULTS INCALCULABLE

Let the newspaper tell your distant friends the story of Victoria's attractions and the Island's capabilities during the next twelve months. The seeker after news of distant fields looks first to the local newspapers, and the more the stranger learns of the City and Island, the more certain is the one or the other of another settler.

ADDRESS ALL ORDERS:

THE COLONIST

SUBSCRIPTION DEPARTMENT, VICTORIA, B. C.

Bowel Troubles of Childhood

It is impossible to exaggerate the value of FRUIT-A-TIVES as a medicine for children. They contain no alcohol—no morphine or cocaine—no dangerous drugs of any kind.

Fruit-a-tives are fruit juices—concentrated and combined with the most valuable tonics and internal antiseptics known to medicine.

Fruit-a-tives are free of calomel, cascara, senna and the most of violent purgatives that simply act by irritating the bowels. Fruit-a-tives are made from fruit and tonics and are pleasant to take, and so mild in their action that they never gripe or pain.

During the summer, when children are so apt to eat improperly, mothers should have a box of Fruit-a-tives always handy.

At the first sign of Diarrhoea, Indigestion, Headaches, Biliousness, Peevishness, Vomiting—give Fruit-a-tives according to directions. These splendid fruit liver tablets will instantly correct faulty digestion—clean and sweeten the stomach—regulate the bowels, kidneys and skin—and so invigorate and strengthen the whole system, that the little ones can quickly throw off the temporary illness.

Get a box now—to-day. 50c. a box or 6 for \$2.50. Sent on receipt of price, if your druggist does not handle them.

FRUIT-A-TIVES LIMITED, OTTAWA.

LONDON SEASON IS AT ITS BRIGHTEST

Numerous Functions and Entertainments Add Life to the Usual Festivities.

THE CANADIAN CLUB GATHERING

Gossip of the Empire's Capital Told by a Correspondent of the Colonist

London, May 5.—London enjoys its brightest and gayest season in May. With both houses of parliament in full swing all gaiety flows to the metropolis. The picture galleries and the theatres, the Austrian exhibition, and the military tournament, and the host of entertainments and social functions, attract all classes from all parts of the country. It is early for the American and colonial invasion, but already the leading hotels are crowded with visitors who usually cross the Atlantic to visit Paris before sojourning in London. But the Paris invasion is unfortunately suffering, and likely to suffer for a time from the sudden outbreak of lawlessness, produced by strikers, which is giving to London hotels and shops the traffic which Paris would ordinarily have been getting in May.

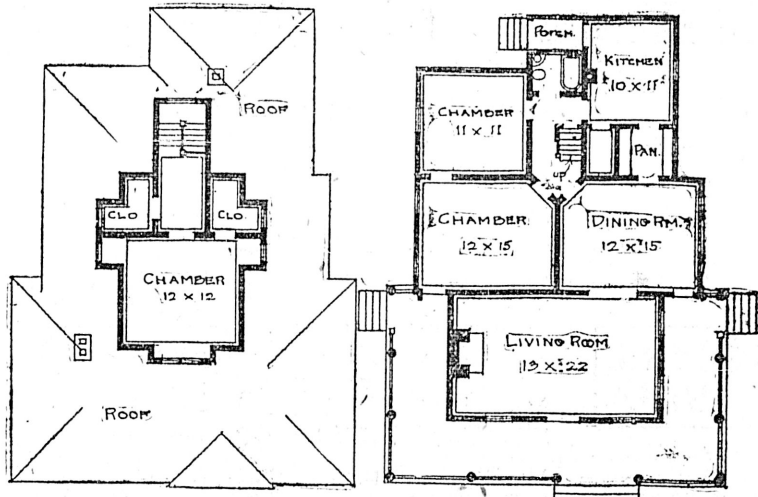

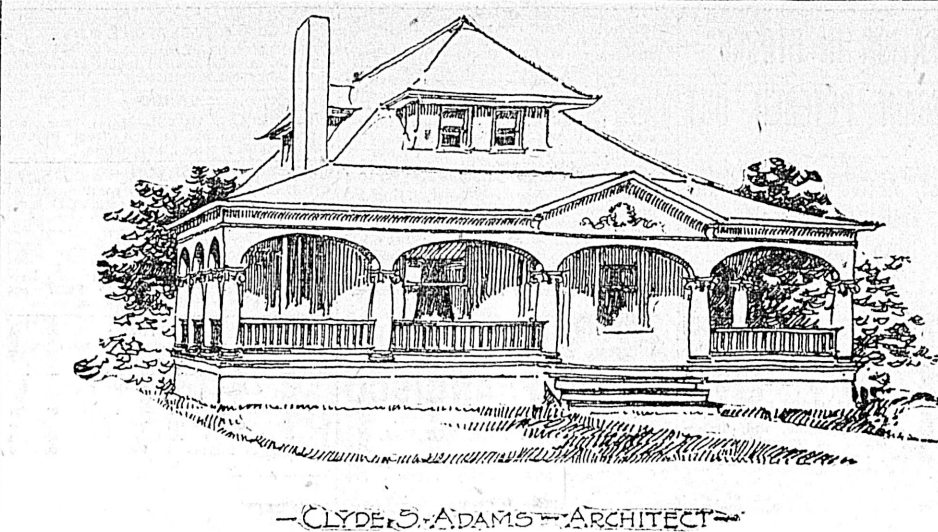

A quiet week in parliament will be succeeded next week by a season of furious excitement over the Education bill. Clerical opposition is growing, and the Unionists, headed by Mr. Balfour and Mr. Chamberlain, will give it unqualified opposition, and in the end,

for the Irish also oppose it, we shall have most likely a system like that in the United States, purely secular, and this, while it would anger the churches, would probably satisfy the average citizen.

There was more than ordinary interest in the Canadian Club gathering this week at the Princess restaurant, Piccadilly, when the guest of the evening was the colonial secretary, and there were also present the postmaster-general and Sir Redvers Buller, and many other distinguished people. Lord Strathcona presided, and in proposing the toast of "The Dominion," spoke with all his old enthusiasm of Canada's progress, which, he said, was not ephemeral, but steady and abiding. Having the postmaster-general at the table, he took occasion to emphasize once more the value of a fast steamship service to Anglo-Canadian relations, and he referred to the prospect of soon having turbine steamers which would bring any part of England within four days of Halifax—a service which must be of incalculable value to Halifax and Nova Scotia and the entire Dominion. Lord Elgin, responding to the toast, was at home, for as a native-born Canadian, he could speak with something more than a stranger's sympathy. The new colonial secretary is not a masterful personality, but he interested the Canadians in London and impressed them with his zeal and sincerity. His speech was enthusiastically received, especially his reference to the negotiations with Lord Strathcona, which had resulted in the continuance of the arrangement for the subsidy to the C.P.R. mail service across Canada to the Far East. This arrangement will continue for two years, during which certain adjustments which have been proposed will be considered. An equally welcome announcement that should be in the office, he hoped, to take part in the Colonial conference, which is appears is practically fixed for the middle of April, 1907. Some colonials have been disappointed that our general election made a conference impossible this year. Some had imagined there was a disposition on the part of the present government to shelve the thing for a good while longer. This, of course, was a mistake. The new cabinet and the new house of commons is as keen to meet colonials and discuss imperial concerns as their predecessors were. In fact, considering that the majority are of the same democratic view and of the same social class as colonials in general, there is perhaps a stronger bond of sympathy between Westminster and the colonies than there ever was.

Lord Elgin made a useful point when he said he thought Colonials should meet in England often rather than they do, and so strengthen the bonds of Imperial unity by spreading a better understanding in this country of what the empire is, and who our fellow citizens of Greater Britain are. In this matter Canadians have set a good example, but it must be confessed that their social gatherings in London partake too much of the exclusiveness of Freemasonry. For camaraderie among fellow Canadians on this side, such exclusiveness is perhaps desirable, but the social agent of the Canadian club, the Canadian society in London might, with advantage, be extended to meetings with trade, political, social and other organizations here, to give opportunities for conversing at close quarters to both colonials and Britons. A public meeting of Canadians or Australians in London is a thing unheard of and yet as a means of conveying information about this country and interesting traders and settlers, such meetings are very desirable.

Sir Redvers Buller who is always welcomed warmly in Canadian circles, had a fine reception when he rose to respond to "The Imperial Forces." He paid an enthusiastic tribute to the Canadians in South Africa and said that with their colonial experience and training, they had developed qualities as hunters and scouts which the English soldier lacked but which were very essential in warfare. If such proceedings as these at the Canada club were at all well reported, they would have great influence outside, but they are not and therefore, it may be said that in addition to such delightful functions as these periodical dinners, it would be a good thing if Canadians in London had occasional gatherings of a popular character. This month crowds will be rushing to the Scottish concerts of the Gaelic society. Why not have a Canadian concert in London. Canada has

A BUNGALOW COSTING \$1510.

Now is the time to turn your thoughts towards your summer cottage. This bungalow has the following rooms on first floor: A large living room, dining room, two chambers, bathroom and kitchen. On the second floor there is one chamber, and two very large closets, which have windows in them, giving light and affording better ventilation. For this style house, the interior has been developed to give you the advantage of every available foot of space and keep the cost down.

The exterior is a good plain substantial type, and has much strength of character. The large porch is one of the most striking features of this bungalow, and will give great comfort during the summer months. The following items showing entire cost of construction, are given:

Stone work	\$ 30	Hardware	40	Plastering	100
Carpentering	300	Lumber	350	Brickwork	50
Paper and nails	25	Painting and glazing	150	Plumbing	75
Millwork	250	Shingle roofing	100	Range	40
					\$1510

fine artists who are often in London, and anyway there is a national genius finding expression in Canadian music which Londoners know nothing about.

The next meeting of the Canadian society in London will be universally interesting. The Canada club having secured Lord Elgin, the colonial secretary, the Canadian society has secured its lieutenant, Mr. Winston Churchill, a no less interesting personality and at the forthcoming dinner next week the president, Mr. Homer Greenwood, M. P. will be in the chair. As Mr. Greenwood, Mr. Winston Churchill, Hon. parliamentary secretary, it may be expected that both these rising parliamentarians will have something to say about the colonial office and the colonies and as both are fellows of infinite jest—of most excellent fancy—there should be some fun.

There has been great rejoicing in the Canadian colony here that one of the victors in the Olympic games at Athens should be a Canadian. It is appropriate that the Marathon foot race, once the glory of the youthful manhood of ancient Greece, should now afford the opportunity to the new nation, born in the west to show the pluck and activity of its virile race. If Sherring comes to London, he will have a rousing welcome.

A letter in the Times this week commenting on the complaint of the Dominion commercial agent in Bristol as to fraudulent packing of apples by certain Canadian shippers has done a useful service to the Canadian trade in England by the statement that the shippers, who bring discredit on their country by the mean tricks of facing barrels of apples, are being more than ever watched by government officials in Canada and the wrong-doers have been fined. This year the trade in Canadian apples in England ought to be bigger than ever and it should be possible to make it impossible for even a few rascals here or there to deceive buyers and ruin the good name of Canadian apples. If complaints continue, it might be worth while for a grower and shipper association to adopt a list of brands which would include all recognized honest growers and issue their lists to buyers abroad, who would have the guarantee that the association officials had seen the apples, examined before shipment. Then consignments bought outside the co-operative association would be at buyers' risk. I have just today seen a beautiful consignment, the first for sale that has been sent here from western Australia and in point of quality, grading and packing, they are the equal of anything sent here from Canada. They have realized good prices and a big trade will probably be established to compete with Canadians who cannot afford to suffer rogues to spoil the reputation of Canada's apples.

The Allan line is determined to do all that one company can do for the fast service to Canada. Their two new turbine steamships are in the shipbuilders hands on the Clyde and in addition to these a great passenger boat to replace the Bavarian (10,000 tons), has just been contracted for. This new boat is not to be a turbine as it is not considered that such a boat of such tonnage and with a 15 knot speed makes such vibration as to suggest the use of the turbine, which the Allan company, for certain steamships still hold to be the most desirable to many readers of our newspapers—especially in the country districts, the most interesting item very often is a bona fide letter from Canada relating the writer's experience as a settler. It is astonishing how little information is conveyed in this way to intending emigrants. It seems a pity that settlers are not invited to send a few lines home to encourage the others, or may be to warn them against avoidable mistakes of ignorance. Emigration authorities rely on their own "literature" which is perhaps the most costly

and the least effective of all the means of attracting and informing the intending settler. Those who wish to boom their own province or it may be their own township, ought to send letters to the British press—no matter how short or crude they are, they will be of immense value on this side, as well as to the Canadian press. In the London Standard there was an article this week on "Middle Class Emigration," which very graphically described the conditions of living in British Columbia which is the kind of advertisement that the various districts of Canada will find most useful. The writer refers to the excellent prospect offered in the Okanagan valley for people who cannot face the heavy labor of pioneer farmers in Manitoba. He mentions the example of a settler, who began at Grand Forks 20 years ago without capital who has now acquired a fortune chiefly from fruit farming. Lord Aberdeen's estate at Vernon is described and the B. C. region generally is recommended to the large class of English people who have a little capital and desire a country life which is not absolutely solitary and to which by reason of its climate and its rich resources which yield a living without slavish labor, English middle class settlers should be attracted.

A great impetus might be given to middle class emigration if in England, we had experimental farms where young men of the middle class could learn something of agriculture. There is a strong feeling in favor of getting on the land—for town life is becoming

The Best Guaranty of Merit Is Open Publicity.

Every bottle of Dr. Pierce's world-famed medicines leaving the great laboratory at Buffalo, N. Y., has printed upon its wrapper all the ingredients entering into its composition. This fact alone places Dr. Pierce's Family Medicines in a class all by themselves. They cannot be classed with patent or secret medicines because they are neither. This is why so many unprejudiced physicians prescribe them and recommend them to their patients. They know what they are composed of, and that the ingredients are those endorsed by the most eminent medical authorities.

The further fact that neither Dr. Pierce's Golden Medical Discovery, the great stomach tonic, liver invigorator, heart regulator and blood purifier, nor his "Favorite Prescription" for weak, overworked, broken-down, nervous women, contains any alcohol, also entitles them to a place all by themselves.

Many years ago, Dr. Pierce discovered that chemically pure glycerine, of proper strength, is a better solvent and preservative of the medicinal principles residing in our indigenous, or native, medicinal plants than is alcohol; and, furthermore, that it possesses valuable medicinal properties of its own, being demulcent, nutritive, antiseptic, and a most efficient antiferment.

Neither of the above medicines contains alcohol, or any harmful, habit-forming drug, as will be seen from a glance at the formula printed on each bottle wrapper. They are safe to use and potent to cure.

Not only do physicians prescribe the above, non-secret medicines largely, but the most intelligent people employ them—people who would not think of using the ordinary patent, or secret medicines. Every ingredient entering into the composition of Dr. Pierce's medicines has the strongest kind of an endorsement from leading medical writers of the several schools of practice. No other medicine has put up for public purposes has any such professional endorsement.

Dr. Pierce's Pleasant Pellets cure constipation. Constipation is the cause of many diseases. Cure the cause and you cure the disease. One "Pellet" is a gentle laxative, and two a mild cathartic. Druggists sell them, and nothing is "just as good." Easy to take as candy.

more and more a profitless struggle. But middle class men do not wish to go to the land in England taking their chance as laborers and they often shrink from trying their fortunes in a far country without having had some practical experience of farm work.

In the Queen's hall daily during May the comfortable classes are invited to an exhibition of London's sweated industries which H.R.H. Princess Beatrice opened this week. Here are seen "the white slaves of England" engaged at their work which a careless public gets in the shops at "cutting prices," not knowing that the workers are employed often for 17 or 18 hours a day to earn 6s. or 7s. a week. Here is a shoe maker making 1s. a day for 14 hours' work; there is a shirt or blouse maker who is earning 5s. a week for 17 hours a day. There are workers making cheap clothes brushes, match boxes, tennis balls, artificial flowers, and scores of others, not one of whom has a living wage. The princess, and indeed, all who saw the exhibition of these products and the pathetic figures of the sweated workers who are so iniquitously treated, were startled and distressed at the revelation of industrial misery. We need no longer ask, "Wherefore do the poor complain?" There are many thousands living hidden in the grey nether world of London's sweated labor, that the public may get bargains and that trades may enrich themselves. This exhibition is likely enough to excite some agitation among reformers, to have some legislative action to protect these wretched workers—mostly women—as trade unionists are protected.

An interesting case was decided this week in the high court which shows the evil of the "tied house" system, which is in so large a measure responsible for drunkenness. A publican had taken over a house leased by a firm of brewers, and he proceeded to make it "a nice clean village inn," where visitors were supplied with a reasonable amount of liquor, and where at the public bar noisy drunkenness was abolished by limiting the drink sold to customers. This, the brewers contended, was in restraint of their trade, and that it was the publican's duty under his agreement to buy all his liquor from them and to sell all he could. The judge has held the publican was within his right, and amply justified, and dismissed the brewers' case. This will have a good effect in many country towns, where the publican may do well as a village innkeeper, without cultivating excessive drinking among customers.

The government, so far, is making steady, and on the whole rapid progress in its work of social reform. The magistracy, so long the exclusive asset of the landed gentry, is to be open to all suitable citizens without any property qualification. The position is not an elected one, but magistrates may be recommended by their neighbors for nomination by the sheriff of the county and appointed by the lord chancellor. The effect will be to democratise the bench and remove in time the squire and the landlord from the exclusive position of judicial authority at quarter sessions.

Another excellent measure which passed its first reading without question was that abolishing the property vote which gives landlords and any owners of house property the absurd privilege of recording as many votes as they have qualifying properties. This "plural voting" by the rich people will be abolished and an owner of several properties in different electoral divisions must choose which one he shall be registered to vote in, and he shall have only one property owner's vote in addition to the occupier's vote. This is a very radical reform.

OSTRICH FEATHER STOLEs and MARABOUTS

IN THE VERY LATEST STYLES

Pongee Silks 25c and 50c per Yard.

Dress and Mantle Making Under the Able Management of Miss Hedley.

For a Good Complexion

FOR Clear Eyes
—Sweet Breath
—Clean Tongue
—Calm Nerves
—Good Temper and
—Poise

Eat a Cascaret whenever you suspect you need it. Carry a little 10c Emergency box constantly with you, in your Purse or Pocket.

When do you need one?

—When your Tongues coated
—When you have Heartburn, Belching, Acid Risings in Throat.
—When Pimples begin to peep out.
—When your stomach Gnaws and Burns.

That's the time to check coming Constipation, Indigestion and Dyspepsia.
That's the time to take a Cascaret.

One candy tablet night and morning, taken regularly for a short time, is warranted to cure the worst case of Constipation or Indigestion that walks the earth.

One tablet taken whenever you suspect you need it will insure you against 90 per cent of all other ills likely to attack you. Because 90 per cent of these ills begin in the Bowels, or exist through poor Nutrition.

Cascarets don't purge, don't weaken, don't irritate, nor upset your stomach.

They don't act like "Physic" that flush out the Bowels with a waste of precious Digestive Juice needed for tomorrow's Bowel-work.

No, they act like Exercise, on the Bowels, instead.

They stimulate the Bowel Muscles to contract and propel the Food naturally past the little valves that mix Digestive Juices with Food.

They strengthen these Bowel-Muscles by exercising them.

This stronger action, producing greater nutrition from food, brings back to the Bowel-Muscles greater strength for self-operation.

The Bowel-Muscles can thus, in a short time, dispense with any Drug assistance whatever.

Cascarets are safe to take as often as you need them, while pleasant to eat as Candy.

Then carry the little ten-cent box constantly with you in your purse, and take a Cascaret whenever you suspect you need it.

One Cascaret at a time will promptly cleanse a foul Breath, or Coated Tongue.

A thousand dollars a year spent in amusements could not buy for you half so much hearty Happiness, solid Comfort, Cheerful Temper and Health Insurance, as that little ten-cent "Vest Pocket" Box of Cascarets will bring you.

All druggists sell them—over ten million boxes a year, for six years past.

Be very careful to get the genuine, made only by the Sterling Remedy Company and never sold in bulk. Every tablet stamped "CCC."

A sample and the famous booklet, "Curse of Constipation," Free for the asking. Address Sterling Remedy Company, Chicago or New York.

A BUSY SCENE AT THE TOURIST ROOMS

**Exhibition Hall Will be Ready
For Installing Exhibits on
June First.**

Rapid progress is being made by Contractor Thomas Catterall, on the remodeling of the reception and office rooms of the Victoria Development and Tourist association, and the two commodious rooms adjoining which will be utilized for a permanent exhibit of "Made in Victoria" goods. Carpenters, painters, and paperhangers are busy carrying out the improvements and alterations planned by Architect S. F. MacLure, who has given his services gratuitously to the association. When completed the exhibition hall of the association will not only be attractive and well lighted for the purposes intended, but its 3,000 feet of floor space will contain an array of manufactured products which will bring prominently to the eyes of the visitor the fact that the Capital City has not only charms of climate, scenery and homes, but is also a manufacturing and commercial city of no mean importance in the industrial life of the province. The decoration scheme is being done in ingrain paper in light greens, which will give, when finished, a most pleasing aspect to the interior of the reception room and also to the two combined and commodious rooms that will be known as the exhibition hall. Both electricity and gas will be utilized for illumination purposes.

Notices have been mailed to intending exhibitors advising that the hall will be ready for the installation of exhibits on June 1st, and also requesting them to attend at 10.30 a.m. tomorrow to select their spaces.

At the city hall, commencing at 4 p.m. today, a meeting has been called for the executive of the association and a second meeting of all the members of the various committees, including the executive, is to be held at the same place at 8 o'clock this evening, when considerable routine and other business will come up before the members.

For Jubilee Hospital.—In connection with the arrangements for Jubilee Hospital day at the steam riding gallery on Douglas street planned for next Saturday, when the proprietor, C. W. Kirk, has agreed to devote one half of the proceeds to the Provincial Royal Jubilee Hospital funds, he has also arranged to give prizes for the best horsewomen. In the afternoon a prize of \$2.50 will be offered to the girl under 14 who has the best seat on the revolving horses, and in the evening a prize of \$5 will be offered for competition.

Local News

City Hall Clean-up.—Building Inspector Northcott is advertising for tenders for kalsomining and papering the police barracks and police court, the hallways of the city hall will also be given a cleaning.

Coming To Victoria.—Dr. F. H. Torrington, of Toronto, will leave for the west early in June in connection with the interests of the Toronto College of Music, and also to give several organ recitals by invitation in Saint Ste Marie, Port Arthur and Winnipeg. Accompanied by Mrs. Torrington, he will proceed as far as Vancouver and Victoria.

Farewell Social.—At the Victoria West Methodist church yesterday evening, there was a very large attendance on the occasion of the farewell social tendered to Rev. R. J. McIntyre, the pastor, the members of the James Bay Methodist church uniting in the affair. A fine musical programme had been arranged and refreshments were served.

Re Vincent Harper.—Respecting an article appearing in Sunday morning's Colonist, which was taken from the Seattle Times, referring to Vincent Harper, it is stated by those in this city in a position to know that he never was, as is stated in the article, a Catholic priest. It is true he embraced the Catholic faith; but his now seeking a divorce necessitates his withdrawal from that religious body.

The Cameron Property.—The first sitting of the board of arbitration to enquire into the value of the Cameron property that was expropriated in order to extend Birdcage Walk took place yesterday afternoon at the city hall. Mr. Temple is acting for the city, P. K. Brown for Miss Cameron and D. E. Campbell has been appointed the third member. During the afternoon considerable evidence was taken, including that of several well known real estate dealers. The commission adjourned till this morning at 10.30, when the case will be resumed.

For Sir Henri's Convenience.—In view of the somewhat inconvenient hour at which the steamer for Vancouver leaves Victoria, it was suggested to Mr. C. H. Dugan that the Dominion government might place at the disposal of Sir Henri Joli on the occasion of his departure from Victoria either the Quadra or the Kestrel to convey him to the Terminal city. Mr. Dugan communicated with Hon. Wm. Templeman and yesterday received word that the department of marine and fisheries had placed at the disposal of Sir Henri, either of the vessels named. It is understood, also, in this connection that His Honor, James Dunsuir, tendered Sir Henri the use of the Thistle for a similar purpose.

Alien Labor Law.—Some few days ago the Colonist received an enquiry respecting the manner of the operation of the Alien Labor Act, and the following press despatch from Toronto, dated May 23rd, will be read with interest: "To constitute an offence under the alien labor act a contract or agreement

Use telephone to Duncans.

to give employment must be entered into before a worker is induced to come to Canada. If the encouragement to emigrate comes first there is no offence committed in making a subsequent promise of work. This was the decision rendered today by the divisional court in an appeal from a case brought by the crown against James Merrick, secretary of the Employers' association. The case was argued before Chief Justice Mulock and Justices Teetzel and Magee.

Meeting Postponed.—The meeting of the Co-operative association, which was to have been held in Semple's hall on the 29th May, has been postponed until further notice.

Mrs. Fulton's Funeral.—The funeral of the late Mrs. Fulton took place yesterday afternoon from the family residence, Orchard street. Rev. G. K. B. Adams conducted the services, and the following acted as pallbearers: Messrs. J. Blus, J. Davey, D. F. Jones and H. R. Ratelson. A large number attended and many beautiful floral tributes were presented.

Ladies' Choral Class.—The members of the Ladies' Choral class are reminded of the usual practice at the Poplars, Beloit street, tomorrow afternoon. An excellent progress has lately been made with the different parts songs, an early date will be fixed for the next musical evening. In order to suit the convenience of all, Miss Archbutt particularly requests that each member make an effort to be present.

New Customs Regulations.—New customs regulations have just been issued by the Dominion government as follows: "A settler may bring into Canada free of duty livestock for the farm on the following basis: if he has actually owned such livestock abroad for at least six months before his removal to Canada and has brought them into Canada within one year after his first arrival, viz: 10 horses only are brought in, 10 allowed; if cattle only are brought in, 10 allowed; if sheep only are brought in, 60 allowed; if swine only are brought in, 60 allowed. If horses, cattle, sheep, and swine are brought in together or part of each, the same proportions as above are to be observed. Duty is to be paid on the livestock in excess of the number above provided for. For customs entry purposes a mare with a colt under six months old is to be reckoned as one animal; a cow with a calf under six months old is also to be reckoned as one animal."

Interesting Address.—At evensong on Sunday, at St. James' church, the Right Rev. Bishop Stringer, the newly appointed bishop to the diocese of Selkirk, succeeding Bishop Bompas, gave a very interesting address. After the usual service and lessons by the rector, the Rev. J. H. S. Sweet, the bishop preached the sermon, and incidentally alluded to his work in the Far North amongst the Indians. He gave credit to the self-sacrificing work of the missionaries amongst the different tribes along the banks of the Mackenzie and Peace rivers long before the time of the Klondike rush, and since then among the miners on the banks of the Yukon. Bishop Stringer pictured in a very vivid manner the lonely miner working his claim, oft times single handed, and far away from any intercourse with the outside world, and of how the missionary was welcomed in the mining camps where service was conducted at more or less frequent intervals. The bishop concluded an earnest address by asking that the work of the church in the Far North might be remembered amongst the church people here. Bishop Stringer left on the Princess Victoria yesterday for the north. He is accompanied to White Horse by Mrs. Hawksley, who goes to join her husband, the Rev. John Hawksley, who is a missionary at that place.

Says "Saxon Ointment" as a Healer is Invaluable.

Victoria, B. C., Oct. 21, 1905.
Saxon Ointment Co., P. O. Box 202, Victoria, B. C.

Dear Sirs—Last spring I was afflicted with a bruise, and from the effects of this my leg and ankle became raw, and steadily resisted all attempts to heal. Being advised to try your Saxon Ointment, I experimented, with the result that I was back to work again in three weeks' time. As a healer it is invaluable. You may use this letter in any manner you see fit.

Yours truly,
A. Y. SANDSTROM,
Turpel's Shipyard,
Victoria, B. C.

Cyrus H. Bowes, Special Agent, 98 Government St., Victoria, B. C.

THEATRICAL

"Wife for Wife" was the opening bill presented by the Lyceum Theatre company at the Victoria last night. There was an enthusiastic audience present, which filled almost every seat. A very creditable performance was given by a well balanced company. H. B. Carpenter and Arthur Askey, in the leading roles, handled their respective parts in a most convincing manner. Lawrence Williams as George the mulatto gave a most realistic interpretation of a very different character. Ruby Lindsay as Edith Walton, the avenged wife, and Zella Covington as Burey Edith, the playgirl, made good impressions. All the other parts were well handled by the other members of the company.

SAN FRANCISCO DISASTER.

From the April number of "ASSURANCE" we gather that the fire losses resulting from this great calamity will be divided among 108 companies, the LONDON ASSURANCE CORPORATION heading the list with a loss of \$1,210,512.

Mr. W. J. Landers, Pacific Coast Manager of the Corporation has received instructions by cable from his Head Office to pay all claims as soon as adjusted and arrangements have been made whereby these claims will be paid from the London Office funds without calling upon the Assets of the United States Branch.

The LONDON ASSURANCE CORPORATION has been in active business for 180 years, has a paid up capital of \$2,240,000 and Cash Assets amounting to \$25,000,000.

The Corporation is represented in Victoria, by Mr. William Monteith, Chancery Chambers, Langley street.
